1. ACCOUNTING POLICIES

a) Nature of Operations

The Students' Union, The University of Alberta is incorporated under the Universities Act of Alberta. The Students' Union is tax exempt with respect to corporate income taxes under S.149(1)(h.1) of the Income Tax Act. According to the Universities Act, The Students' Union is to provide for the administration of the affairs of the students at the University of Alberta, including the development and management of student institutions, the development and enforcement of a system of student law and the promotion of the general welfare of students consistent with the purposes of the University of Alberta. As such, The Students' Union represents approximately 34,000 undergraduate, full-time, part-time and inter-session students at the University of Alberta. The mission of The Students' Union is to be an organization for students which represents students in an effective and accountable manner, provides programs and services that meet the needs of students, enhances the image of both the University of Alberta and its students in the greater community, provides opportunities for the interaction and personal development of students, and fosters a sense of spirit and community on campus.

b) Inventories

Merchandise inventories are valued at the lower of cost and net realizable value. Cost is determined on a first-in, first-out basis. Net realizable value is defined as selling price less costs to sell.

c) Interest in Properties

Interest in properties are recorded at cost. Management provides for amortization using rates designed to amortize the cost of the capital assets over their useful lives. The annual amortization rates and methods are as follows:

Furniture and office equipment	20%	Declining Balance
Computer equipment	30%	Declining Balance
Leasehold improvements	20%	Declining Balance
Students' Union Building and improvements	50 yrs	Straight Line

Amortization is recorded as a reduction in Net Assets Invested in Properties. The art collection is not amortized as management has determined that no decline in economic value has occurred. Full amortization is recorded in the year of acquisition and none in the year of disposal.

d) Appraisal Increase in Art Collection

On August 18, 1989, The Students' Union, The University of Alberta recorded an appraisal increase in its art collection in the amount of \$129,300. There was a corresponding increase in Net Assets, Appraisal Increase on Art Collection.

e) Revenue Recognition

Externally restricted contributions:

The Students' Union, The University of Alberta follows the restricted fund method for externally restricted contributions.

Restricted revenues are recognized as revenue specific to the reserve or fund to the year the revenue is received.

Revenue from all other sources:

The organization follows the deferral method of recognizing revenue from all other sources.

Unrestricted revenues are recognized as either general revenue or departmental revenue and are reported in revenue of the current period.

Deferred Revenue:

Restricted revenue from all other sources is reported as deferred revenue and recognized as revenue in the year in which the related expenses are incurred. In addition, deferred revenue includes deposits received in advance of services provided (rents).

f) Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. By their nature, these estimates are subject to measurement uncertainty and the effect on the financial statements of changes in such estimates in future periods could be significant.

g) Long Lived Assets

Long lived assets comprise investments and interest in properties.

Long lived assets held for use are reviewed for impairment when certain events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The recoverability test is performed using undiscounted future net cash flows that are directly associated with the asset's use and eventual disposition. The amount of the impairment, if any, is measured as the difference between the carrying value and fair value of the impaired assets and presented as an additional current period amortization charge.

During the year no events occurred that caused management to review long lived assets for impairment.

2. INVESTMENTS

Investments consist of various Government and Crown Corporation interest earning securities and units in mutual funds.

The investments are recorded at cost.

The market value of the investments as at April 30, 2007 is \$4,234,965 (2006 - \$3,932,465).

7. FINANCIAL INSTRUMENTS

Financial instruments consist of recorded amounts of accounts receivable, accrued interest receivable and investments which will result in future cash receipts, as well as accounts payable and accrued liabilities, and long-term debt which will result in future cash outlays.

a) Interest rate risk

The company manages its exposure to interest rate risk through floating rate borrowings. The floating rate debt is subject to interest price risk, and the value will fluctuate as a result of changes in market rates.

b) Credit Risk

Credit risk arises from the potential that a counter party will fail to perform its obligations. The Students' Union is exposed to credit risk from customers. However, The Students' Union has a significant number of customers which minimizes concentration of credit risk.

c) Fair Value

The carrying values of the financial instruments noted above approximate their fair values.

8. FURTHER INFORMATION REGARDING RESTRICTED AND UNRESTRICTED NET ASSETS
