This application is for a:

DIE Board Hearing

Reason

This is a reference question as per bylaw 1500.3.1.d.

Bylaw 8100.4.2: Every Faculty will be represented by one and only one Faculty Association, every Campus will be represented by one and only one Campus Association, every Residence will be represented by one and only one Residence Association and every Department will be represented by one and only one Departmental Association.

Bylaw 8100, definition I: "Departmental Association" shall be any association of students, based upon enrollment in an academic department or program that is recognized as such under this bylaw and the appropriate legislation of an "Association";

The bylaw and definition have a contradiction on which I would like to request the board to provide some clarity. A departmental association can be based on students enrolled in a department or program as per definition. However, as per bylaw, a department can have only one departmental association. Now a department can still have multiple programs.

So under the SU Bylaws, should each program have a departmental association as suggested by definition or each department should have a departmental association as suggested by bylaw itself?
