As per Bylaw 600, Section 5(2), "The sustainable method of translation shall be established and an initial translation of Bylaws and Political Policies shall be performed by no later than April 30, 2018." Currently, Students' Council is in contravention of this Bylaw, as there has been no initial translation of either Bylaws or Political Policies. Regarding this situation, I have two questions for the DIE Board:

1) In the event that the Students' Union is in contravention of its own Bylaws, is there any enforcement mechanism to ensure compliance; and

2) If the Students' Union is in contravention of its own Bylaws, does it have the power and authority to make changes to the Bylaw(s) to ensure it is no longer being contravened? Or must it resolve the contravention prior to any changes?
