2003-24/6a SMITH - With regards to the merger of the U of A and Augustana, there are a number of legislative issues posed to the Students' Union, including issues surrounding dedicated fees. My questions:

2. If so, when will these issues come to Students' Council?
3. If so, has the Executive Committee committed anything to any party that it cannot deliver without an act of Students' Council?

PRESENTATION AND DISCUSSION

Weppler presents ‘Whip Cream Justice’.

Senate presentation “Beyond These Halls” is cancelled.

2003-23/6

QUESTION PERIOD

WALLACE – A constituent of mine has told me that they cannot get prescriptions filled on Saturdays or after five. This means that they cannot get the subsidized prescription. Is there any way that they could stay open longer so that students can take advantage of this more fully?

BOTTEN – I don’t see that happening, but I will look into it. This is the status quo for when the Pharmacy was not in the Bookstore.

WALLACE – What are the miscellaneous items listed in the budget? What exactly does miscellany entail?

BRECHTEL – That accounts for economies of scale. Things like if the ad prices in the Gateway went up or something like that.

SMITH – Did the President threaten the AMMS of UBC with litigation?

BRECHTEL – No, I cannot recall doing such a thing.

KOTOVYTCH – I am of the understanding that we budget for liquor on the SU changeover retreat. Doesn’t this contravene standing policies on the purchase of liquor.

BRECHTEL – No, we have an exemption in our liquor policies for the retreat.

2003-23/6a

SMITH - One February 7, a number of U of A students (including some Valued Constituents of mine) were making merry in the Room At The Top, whose posted Saturday hours are 3 pm to 3 am. At 1 am, they were advised that RATT was closing. My question is as follows: who has the discretion to close RATT earlier than its posted closing time, and on what basis is that decision to be made?

Please see document SC 03-23.01

2003-23/6b

SMITH - Could Students' Council receive a breakdown of how the ten thousand dollars illegally transferred from the Project Reserve to the Operating Budget for the Tuition Campaign was spent?

Please see document SC 03-23.02
SMITH - In the Spring of 2003, a motion to remove the Video Information Display System (VIDS) monitors from SUB was struck from the Executive Committee report by Students' Council. The rationale of those favouring striking it - including then Vice President (Academic) and current President Mat Brechtel, then Science Councilor and current Vice President (External) Chris Samuel, and then Education Councilor and current Vice President (Academic) Janet Lo - was that the monitors could be made useful without significant capital or operational expense. Since this Executive took office, the untrained eye would conclude that there has been no action at relating to the VIDS monitors. My question is as follows: is this assessment correct, and will this change before this Executive leaves office?

Please see document SC 03-23.01

APPROVAL OF EXECUTIVE COMMITTEE REPORT

BRECHTEL/LO MOVE THAT item #6c in the Executive Committee Report be approved separately.

CARRIED

WUDARCK – Why did you change the wording under 'charitable organizations' to a 'registered charities'.

BOTTEN – At the end of the day, all registered charities are charitable organizations. It is an accountability measure to make sure we are supporting legitimate charities.

EXECUTIVE COMMITTEE REPORT APPROVED

LO/BRECHTEL MOVE TO approve item #6c

Lo – This is one of the things that COFA wanted to do to ensure that we are helping to build stronger Faculty Associations. We will be trying to give them the tools to be more effective as student advocates. Faculty Associations will be providing 35 dollars for every 40 dollars we provide.

2003-23/9

OLD BUSINESS

None

2003-23/10

LEGISLATION

2003-23/10a

DUBE/WALLACE MOVED THAT Students’ Council attendance requirements be eliminated (notice of motion).

DUBE - I believe that it is not the job of this body to keep its members accountable, rather it is the job of the electorate to keep the members of this body accountable. We need better accountability measures of students, we need to look at ourselves in a way that we haven’t been before. I think you should get rid of this rule.

Dube/Smith move to read the motion for the first time.

CARRIED

TAM/ABBoud MOVE THAT attendance requirements not be enforced for the Spring/Summer terms of Students’ Council.

Tam – I think that this will solve a number of our problems. I think that councillor Dube’s concerns really only apply to the Spring and Summer terms. I think that you should be bound to the commitment that you make in the Fall/Winter terms, but I think we will see many less dismissals with this amendment.

SMITH – I am opposing this amendment because I think that attendance requirements are dumb. If anyone can tell me an effective way of policing attendance, I would like to hear it.
Amendment DEFEATED

KOTOVYTCH – My concern is the issue of being able to achieve quorum. Councilors have not been ‘booting’ councilors; we have merely been upholding the rules of this body.

WELKE – It is not the job of this body to hold people accountable.

BOTTEN – We can create an effective council without scrapping attendance requirements.

SMITH – I disagree with Welke, I think that part of the job of this body is to ensure that we reach quorum.

SAMUEL – We don’t have quorum problems, at least not when meetings don’t go on for 5 hours at a time. I think that Councilors have a dual responsibility to those that they represent as well as other faculties as a whole. It is completely in our prevue to make sure that our organization is working properly.

Main motion fails to receive a 2/3 majority vote and is DEFEATED (Vote: 17/16/1)

2003-23/10b

DUBE/WALLACE MOVED THAT Students’ Council proxies be eliminated.

SMITH/DEMANULK MOVE THAT the motion be read for the first time.

CARRIED

TAYLOR - My problem with eliminating proxies is that we have people who have to work over the summer, and some of us can’t get jobs in our field in the city. We nixed that last option and I hope we nix this.

DUBE – Proxies are not accountable to anyone and can really do whatever they please.

ABBOUD - The duty of the elected member sending the proxy is that they are accountable to their constituencies. If someone keeps sending bad proxies, their constituency can hold them accountable. Allowing for proxies has allowed to new people to come into the organization. This is something for the ultimate benefit for the organization we cannot overlook.

Main motion fails to garner a 2/3 majority vote and is DEFEATED (Vote: 6/25/2)

2003-23/10c

PANDYA/WUDARCK MOVED THAT Students’ Council approve the report of the Committee for Council Reform and Progress and amend SU legislation accordingly.

PANDYA - This is the summation of hours of meetings. Bylaws 100, 200 and 300 are all amended here. There would be a budget established by the chair. Motion has been given due notice.
PANDYA/WUDARCK MOVED TO read for a first time is CARRIED

SMOTH/DUBE MOVE TO strike ‘When allocation faculties seat, use Full Time equivalents for numbers (3-0).’

BRECHTEL - I was in opposition for this. The reasoning we used for this was that there were more full time students in faculties than part time. The justification for charging PT students less is because they do use our services less. Functionally, a faculty like open studies, they would have a much higher representation on campus than a faculty that is all full time, like Med.

DUBE - The problem with this is that the FSJ doesn’t use Students’ Union Services. FSJ has it’s own services, and this is something that we are trying to rectify. I think that it is a nice idea in principal but not in practice.

SMITH - When we reduce seats in a faculty, because of a high proportion of part-time students, we are also reducing the representation of full-time students.

CARRIED

Smith rises on a point of order.

SMITH - The first two points under proxies and attendance are best left to the committee.

The Chair – Point of order is well taken, and the two points above will be struck from the report.

SMOTH/BAZIN MOVE TO strike the final point under ‘Changeover bylaw’.

SMITH - I do not feel that it would be practical to do this.

BOTTEN - I would like to see this meeting go quickly. I would say that having knowledge that this would be the system, the meeting schedule would be adjusted accordingly.

WELKE - This basically allows us to not do our jobs for one meeting.

BRECHTEL - I would pause it to council that is about to lose its mandate the next day as being the one to deal with a last minute issue. This becomes an issue of people being able to plan accordingly. What pressing business could we possibly have that a council that is going to meet in the next hour is beyond me.

DUBE - We have a job to do, and we must do it. I have an issue with having fun on someone else time. I don’t think that we should deal with anything substantive, but it shouldn’t be legislated.
CARRIED  
(Vote: 14/13/0)

ABBOUD/BAZIN MOVE TO strike Possible Amendments to CRAP Report.

ABBOUD – If you are going to make an elected speaker, you must make the speaker elected from one of your own. This would be the first of this order of the council. Then the speaker would enjoy a majority of confidence from the council. As well, we will introduce a clerk of Students’ Council. Aiding in the drafting of legislation. We have been trying to empower council in a number of ways.

WELKE MOVES THAT ‘selected’ will be changed to ‘nominated’.

FRIENDLY

DEFEATED  
(Vote: 9/18/0)

Main Motion CARRIED  
(Vote: 19/3/0)

Samuel/Botten move that Students’ Council redefine it’s political policy structure based on the following principles (notice of motion):
1.) That there be two separate levels of political policy.
2.) That there be a clear separation between the two levels of policy.
3.) That one of the levels of policy would be reserved for broad, long-term principles.
4.) That the other level of policy would be reserved for situational and more specific principles.
5.) That any policy referred to in 4.) cannot contravene a policy in 3.)

SAMUEL - One of the remaining tasks is to do a policy rewrite and make sure that everything that we have on policy are in accordance with students wants. Policies are meant to be a voice, a reflection of what they want. It would also seem to me that we should delineate between goals of greater and lesser importance. If the policy is supposed to be the voice of our students, it can be monotone, or we can create a situation were we can prioritize principals. We can have values that are more deeply enshrined, but at the same time, you can have situational policies. I think there is value in that.

SMITH/BAZIN MOVE THAT the motion be read for the first time.

CARRIED

SMITH - Policy inflection is not delivered by how many levels we have, but in how our exec committee delivers them. We should be moving to greater simplicity in our political policy.
SAMUEL - I would argue that political policy as a message of content to the public, but they also serve as a direction for our executive. Right now, you have these policies that don't do much. I feel that it offers us some kind of institutional memory for the more green members of Exec committee. In terms of the exec members, having this delineation will allow them to have a better direction to decide what kind of direction that they want to plan their year in. We want to strive for simplicity.

WEPPLE/PANDYA MOVE TO add to point #4 “...And will expire on April 30th”.

WEPPLE - By virtue of the type of issue like the ENGCOMP 110 thing, that policy is redundant at the end of the year. But it allows us to draft longstanding policy and short ones too.

CARRIED

Main motion lacks a 2/3 majority vote and is DEFEATED (Vote: 11/13/0)

LO/BAZIN MOVE THAT Students' Council adopt a bylaw concerning Faculty Associations in accordance with the recommended principles.

LO - One of my goals was to do better with FA's. FA's are a little bit different than a student group because every student is represented. This was approved by all but the ESA.

LO/BAZIN MOVE TO have it read for a first time.

CARRIED

LO - What council would be saying here is that this is what we define as a student group and then this is what we define as a Faculty Association. This is meant to recognize that FA's are a little different.

CARRIED

2003-23/10f

BOTTEN/BRECHTEL MOVE THAT Students’ Council (notice of motion):
(1) Repeal Legislation respecting the Financial Affairs Board and the Internal Review Board;
(2) Pass new legislation creating a Budget Committee and a Legislation Drafting Committee;
(3) The Budget Committee will:
(a) Be responsible for preparation of a preliminary budget for the upcoming fiscal year and a final budget for the current fiscal year;
(b) Be composed of the Vice-President Operations & Finance as Chair, six voting faculty members from Students’ Council;
(c) Have a recording secretary appointed by the chair;
(d) Chair may select a designee for any meeting they can not attend, and in the absence of a designee the committee shall select an alternate Chair for that meeting;
(e) Quorum of any meeting will be four (4) members.

(4) The Legislative Drafting Committee will:
(a) Perform an ongoing review of SU legislation and be empowered to make, without reference to Students’ Council, editorial, non-substantive revisions;
(b) Be responsible for Drafting changes to Students’ Union legislation in accordance with the directions set out in the standing orders of Students’ Council;
(c) Be composed of the President or designate as chair, six voting faculty representatives from Students’ Council, and the Speaker as a non-voting member who will serve as a primary draftsperson of the committee;
(d) Chair may select a designee for any meeting they can not attend, and in the absence of a designee the committee shall elect an alternate Chair for that meeting;
(e) The Speaker will serve as the secretary of the committee unless an alternate secretary is appointed by the Chair;
(f) Quorum of any meeting will be four (4) members.

**BOTTEN** - This motion comes right out of Committee reform. When an org review was done in 1995, 5 boards were created. The Financial Affairs Board is only enacted when someone needs a budget approved. Internal review has done more than it should have this year. I would have it renamed as the Legislative Drafting Committee, as that is exactly its purpose. The first two boards tend to respond in a reactive way rather than a proactive way.

**BOTTEN/KOTOYVYCH MOVE TO** have it read for the first time.

**CARRIED**

**Samuel/Smith** move that 4c read ‘be composed of 7 voting members of Students’ Council.

**SAMUEL** - I think that more often than not we elect presidents that are bad legislative drafters and I do not feel that they should have any place on legislative drafting committee. I don’t think that being president of the Students’ Union will allow you to be a better legislative drafting.

**SMITH/DUBE MOVE TO** postpone this motion.
SMITH - I think that I need some time to hash this out with the mover.

CARRIED – Item is postponed.

2003-23/10g  
SAMUEL/LO MOVE THAT Students' Council, upon the joint recommendation of the External Affairs Board and the Academic Affairs Board, rescind the political policies; "Post-Secondary Education Funding Cutbacks", "Tuition Deregulation", "Tuition Authority", "Alberta's Tuition Policy", "Post-Secondary Learning Act", "Tuition Policy", and "Tuition Levels and Regulation".

CARRIED

BOTTEN/BRECHTEL MOVES TO make 11b a Special Order.

CARRIED

2003-23/11b  
BOTTEN/BAZIN MOVE THAT Students' Council approve the proposal for changes to the Students' Union payroll system and the necessary budget changes reflected therein.

BOTTEN - The report aims at doing our own payroll so that we can save $6500 a year. I recommend that we approve this.

CARRIED (with 2/3 majority vote)

WELKE/BAZIN MOVED TO make 11c a Special Order.

CARRIED

2003-23/11c  
WELKE/BAZIN MOVE THAT Student’s Council amend Standing Order 7.

WELKE - What this will do is that it will allow any councilor to extend any of their speaking privileges to guests.

Dube MOVES THAT the words ‘to a member of their constituency’ be struck and the words ‘a guest’ replace them.

FRIENDLY

CARRIED

It would be worth noting that this is the final substantive action initiated by Councilor Welke before his resignation.

2003-23/16  
ADJOURNMENT

TAYLOR/WALLACE MOVED THAT Students’ Council at 9:45 pm.

SMITH/TAYLOR MOVE TO reconsider item 10g.
Chair – Motion will be noted in the minutes and the chair shall rule as to whether or not it is in order at the next meeting of Students’ Council.

March 17, 2004

Students’ Council,

In accordance with Section 12 of Bylaw 8451, the Engineering Students’ Society respectfully submits this report on the operations of the Faculty Association Membership Fee. This is the second such report submitted since the fee collection started. The next regular report to Students’ Council will be submitted by November 15, 2004.

The Faculty Association shall submit a report detailing the operations and administration of its funds to date, including the refund provision, to Students’ Council by November 15 and March 15. Additional reports may be requested by Students’ Council, but must allow a reasonable time period for submission.”

I will be available to answer questions during Question Period at the meeting of March 23rd, or you can submit them to me at famf@ess.ualberta.ca. Supplemental information regarding the disbursement of these funds has also been made available on the ESS website at http://www.ess.ualberta.ca/fee/accountability.

Sincerely,

[Signature]

David Weppler
Faculty Association Membership Fee Administrator
Summary
Winter term 2004 marks the second term for which funding for engineering student activities has been provided by the Faculty Association Membership Fee. The funding for this term was transferred to the clubs after the deadline for submission of their reports to the ESS, so a detailed breakdown is unavailable at this time. Most of the clubs used this money for their First-Year Information Nights, which provide an opportunity for first year engineering students to learn more about each discipline so that they are capable of making an informed decision when they submit their program selection forms. In future years the funding will be provided earlier in the year, to increase the usefulness to recipient groups and ensure adequate time to prepare the documentation for accountability.

Administration
The funds are still currently being used through the Engineering Students’ Activity Fund account, due to a slow response from the University of Alberta Financial Services in our request for a university account. The Faculty of Engineering is working on obtaining this account for the 2004-2005 year.

Refund mechanism
For students that are opposed to the Faculty Association Membership Fee, for whatever reason, they are allowed an opportunity to refund their payment. In accordance with policy, a deadline for students to apply for a refund was set for 4:00pm on Friday, March 5. Students were made aware of this deadline two weeks in advance through the EnggLink e-mail list, the ESS website, the Bridge newsletter, and brochures available online and outside the ESS office. Zero additional students applied for a refund of their Winter 2004 fees, leaving only the ten students whom applied for a refund of both terms in their Fall 2003 refund application. Their payment will be refunded within one month of the ESS receiving the funds from the Students’ Union, as per the policy.

Distribution model for 2004-2005 year
The ESS is currently working with various engineering student groups to develop an appropriate distribution model for how to divide the $3.73/term per student. The model will be brought to the next General Meeting of the Engineering Students’ Society on March 23, for ratification by engineering students.

Chemical

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

The FAMF money was used for the faculty first year night which was held on March 2, 2004. This event was held for first year students that were considering chemical engineering as their discipline.

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.

This money was put towards showcasing the faculty of chemical engineering to first year engineering students.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

Approximately 110 students showed up to this event. All the FAMF money went towards the cost of Pizza for this large group.

Civil

The Civil Club donated $2000 to the GNCTR team this year. This year the team had 43 enthusiastic members from different faculties on campus as well as many different engineering disciplines. The $369 of FAMF money all went towards making this trip possible for the 43 members.

Computer

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

The Computer Engineering Club's fall general meeting.

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.
The fall general meeting served a number of purposes. Firstly, we appointed several attendees to positions on the Computer Engineering Club executive, which has given them opportunities to be involved with our club, other engineering student clubs, and the Engineering Student's Society. We also promoted other events to be put on by the club, gained exposure with students in our faculty, and cultivated a greater pool of volunteers for student activities later to come. The funding enabled us to provide the refreshments (pizza, pop, and cookies) that we use as an incentive to make sure the meetings are well attended and our messages and opportunities reach as many students as possible. Finally, information about engineering week was distributed at this meeting, which doubtless added to the number of computer engineering students aware of and participating in various engineering week events.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

- The meeting itself: 30
- Meet a CompE Night, possible with volunteers recruited at the meeting: 40
- Engineering week participation: 30
- Projected students involved in video game tournament March 11th: 40
- Projected students involved in foosball tournament April 4th: 80
- Projected students involved in terminal bash (pending approval): 150

The last three events will be/are being organized by the games representative and 2nd year representative recruited at the general meeting. The next installment of FAMF money may contribute to these.

**Electrical**

- CAPS ECE Career Forum
- 2nd Year Welcome BBQ
- Engineering Week Movie Night
- Event Promotional posters for these events (lumped)

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.
The FAMF funds supplied to the EE Club were used to support events of broad appeal to all students.

The 2nd year BBQ is oriented towards providing opportunities for student involvement, by offering a chance for 2nd year EE students to meet and interact with their club executive. This is run as a recruitment device, encouraging students to attend the EE Club Fall General Meeting which took place exactly one week after the BBQ.

The EE Club offered free food as a mixer for the CAPS Career Forums, encouraging students to attend. This (likely) increased attendance and allowed for a greater turnout.

The Engineering Week movie is one of the club's most popular events of the year, and every year fills the theatre to capacity. The funds provided props and costumes for the movie, which made filming possible.

Advertising for EE Club events are generally done using simple posters printed on the club computer. While these costs are relatively small, they still must be considered as a part of the expense of holding events. This occupies a very small percentage of the overall budget.

**Engineering Physics**

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

- FAMF funding was used to partially support the following events:
  - Second Year Welcome Barbeque
  - Annual Eng-Phys General Meeting

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.
Both of the above mentioned events directly serves this purpose. The second year welcome barbeque introduces the new engineering physics students to the club and gives them a great opportunity to meet the eng-phys coordinator, club executives, and other engineering physics students from higher years. It gives them a chance to get involved from early on in the year.

The general meeting delivers a preliminary plan of club activities for the rest of the year. This meeting lets many engineering physics students know what the club has to offer, how they can get involved, and just to let them know that we are here to help them if they needed help.

- Second Year Welcome Barbeque - 30 students
- Annual Eng-Phys General Meeting - 50 students

First Year

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

1. First Year Club Retreat (2 days)
2. ENGG week
3. Pool Tournament
4. First Year Info Mixer

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.

The Club retreat was really helpful because we learned about leadership, we sort out our goals and purposes as a club, and just getting to know each other. Participating in ENGG week and spending the funding was both money and time well spent because it gave the first year engineers to have a chance to get involved with other clubs and get to know tons of new people. The pool tournament took place after finals and ENGG week, and it was for first year students only because we wanted to reach out to the first year students (making this our first independent event) and just let them have fun.
Due to the limiting capacity at the arcade, we had to limit the number of students but over all, it was worth it. Lastly, it was the first year mixer. This time we linked the first year students with CAPS, other undergrads talking about their experiences and academic information regarding specifically to 2\textsuperscript{nd} year placement requirements. Without funding like FAMF, it would be very difficult for the first year club to make these events happen and more difficult for the first year engineers to be informed and most importantly, to have fun. We are actually looking forward to the second portion of the FAMF funding because we’re holding a traditional free barbeque that first year club throw at the end of the final exams to the first year students. Therefore, FAMF is really important to the first year club!

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

1. The retreat was around 15 people because it only for the executives and volunteers.
2. The ENGG week was for all first year students but not everyone participated in the events.
3. The pool tournament involved around 40 people because of the limiting capacity (some kind of safety code)
4. The first year info mixer had around 100 students.

Materials

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

- Helped pay for the extra cost for a new logo for Mat E clothing so that the students and staff ordering the new clothing did not have to pay more then the base price for the clothing.
- Helped fund a second year night to help second year students get to know each other that included pizza and two games of bowling.

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.
- The funding helped keep the cost of ordering clothing as low as possible, so that more students could afford at least one item of clothing with a Mat E logo. This is important because having a Mat E clothing line (hard for so few students) helps students, (and even some staff) feel more part of the department.

- In Mat E, second year students only have one Mate class together (Mat E 256) so it is a good way to help them get to know their classmates.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

- Approximately 25 students and staff ordered clothing last term, and right now we are setting up a second order for clothing, because many students want to buy clothing.

- 12 people attended the second year night.

Mechanical

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

1) 2\textsuperscript{nd} Year Smoker (Barbecue)
2) Student/Prof Mixer
3) Engineering Week Party

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.

The entire goal of the Mechanical Engineering Club is to increase student participation and liven up school spirit. Having money to put on events allows us to encourage students to broaden their horizons. The purpose of the 2\textsuperscript{nd} Year Smoker is to show second year students new to our department the benefits of becoming active in the MecE Club and to collect names for our mailing list (to advertise future events and opportunities). Our Student/Prof allows professors to speak with students in an informal setting and make students more comfortable so they don’t think of their teachers as pedagogues. Both events are services put on by the MecE Club that benefit large groups of students by showing them where opportunities for extra-curricular activities exist, therefore encouraging participation and a balanced
lifestyle. The third event, the Engineering Week Party, is a solely social event aimed at allowing students to fully enjoy their university experience; this time through the local band scene.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

1) Second Year Smoker → ~125 people
2) Student/Prof Mixer → ~100 people
3) Engineering Week Party → ~100 people and food bank

Mining

We used the funding to pay for Engg. Week poster printing. These were posted wherever possible on campus. They not only serve to bring attention to the Mineral Engineering Club, but to the Engineering Faculty in general.

The funding was also used to rent a barbeque for an event in quad.

The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.

The event in quad was good for several reasons. Not only was it a very visible promotion for the club, but it was also a great chance for students new to the program to mingle with returning students.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

The Engg. Week posters and the quad event both indirectly benefited everybody in the club through promotion of the club. As well, anybody who
wanted to partake in Engg. Week or in the quad event were welcome to. Basically, about half of all eligible club members (50 – 75) were affected by these events.

**Engineering Students’ Society**

List the events or activities that have been supported by funding from the Faculty Association Membership Fee through your group.

**Engineering Week:**
As most students know, Engineering Week (Engg Week) is a proud campus tradition. A number of events are held such as a scavenger hunt, tug of war, battle of the bands, and many more. The week is finished off with a bang at the Engineers’ Ball, a formal dinner and dance.

**Engineering Handbook:**
The engineering handbook is the agenda used by the majority of engineering students here at the U of A, and a number of non-engineering students who enjoy its content and layout. The handbook was so popular this year that a second printing was required.

**First Year Orientation:**
A number of events are held to help orientate the first year engineers. The first and most notable is G.E.E.R. 101, a week of fun games aimed at having the first years meet one another. As well, a very popular motivational mixer is held to help students along with their academic troubles. The First Year Engineering Club (FYEC) exists in a effort to get first years involved. This club represents the first years on many levels and provides a number of services and events. A retreat was held in order to help make the executive stronger, more efficient and overall better representatives.

**Conferences & Competitions:**
The ESS sends a number of students to a number of conferences and competitions:

WESST Retreat: An annual meeting with all the other western engineering schools helps bring a good representation between schools, and allows the people we send to bring back valuable experience and information.
WECC: The Western Engineering Conference & Competition is an annual event where students from across Western Canada measure off in a variety of events.

CFES Congress: Like WESST Retreat, but much more substantial. This is a meeting of the best engineering political minds from across Canada, where ideas and strategies are discussed and debated. Many good ideas currently in use here at the U of A are inspired from this conference.

CEC: The Canadian Engineering Competition is where the winners from WECC represent western Canada on a national scale.

CFES/WESST Dues:
By paying into these memberships for the Canadian Federation of Engineering Students (CFES) and Western Engineering Student Societies Team (WESST), the ESS is entitled to a number of services, conferences and competitions that would otherwise be unobtainable.

*The purpose of the Faculty Association Membership Fee is to create opportunities for engineering student involvement, and support engineering student activities. Describe how this funding has been used to further these goals.*

Engineering Week:
Much of this year’s funding was put into paying for the Engineers’ Ball. This event is easily one of the most popular, and this year was no exception. This year marked a major increase in quality of the formal, as costs were no longer being cut nearly as bad. A decent sound system was rented (much to the delight of past participants), and more plates were able to be ordered.

Engineering Handbook:
The money here was used purely for printing. Most engineering students now have and use this handbook. The handbook contains valuable information about how to get involved, what’s going on around campus, etc. This year, the ESS saw its volunteer base increase dramatically, thanks in no small part to the handbook.

First Year Orientation:
First year involvement saw an increase as well. A greater number of first year students ran for an executive position than in the past 5 years (likely longer than that as well). There are currently 2 first year students running for SU Council, and a number of first year students applying for positions on next year’s ESS executive.
Conferences & Competitions:
Thanks to the FAMF money, the ESS was able to send more people to conferences and competitions. Most notable was the ability to send 15 students to WECC, which was not cheap. Of these students, 3 students qualified for CEC. As well, a student from the U of A was elected to become the CFES Social Issues Commissioner. From that another student was nominated and chosen to become President of the CFES Pi Throw International.

CFES/WESST Dues:
This brings a trickle down-effect to the equations. The ESS pays for CFES/WESST dues, and students can go to the conferences & competitions. The ESS goes to conferences, and brings back valuable information that directly benefits the students and their involvement.

Estimate the number of students that benefited from your group’s use of the Faculty Association Membership Fee, broken down by events/activities that were supported where appropriate.

Engineering Week general events: 50-100 students/event
