I am pleased to announce the winners of this year's Students' Union By-Elections.

The Students' Council and General Faculties Council By-Election was held September 29<sup>th</sup> and 30<sup>th</sup>. Our elections were held in compliance with Bylaws 1500, 2200, and 2500, and I am satisfied that they were fair and that the results reflect the will of the electorate. There have been no appeals of any of my decisions or rulings and no recounts have been requested.

More detailed results, including breakdowns of each round of preferential voting, is available on the Elections website ([www.su.ualberta.ca/vote](http://www.su.ualberta.ca/vote)). A final version of these detailed results will be published in my final report submitted to Students' Council.

**COUNCIL REPORT OCTOBER 4, 2005**  
**VICE PRESIDENT EXTERNAL**

Hey all, sorry it's late, I was in Lethbridge on the due date.

**Post-Secondary Review:** Regional consultations were held in Edmonton on September 28<sup>th</sup>. The format was break out groups and facilitated discussion. I didn't feel the conversation was productive. It seems the ministry believes this process to be about setting a framework for policy discussion, but we're more concerned about the immediate effects and changes that need to happen.

We held our **PIA forum** in conjunction with AAS:UA, and NASA. Dave Taylor and Raj Pannu were in attendance, I felt some good discussion was had. We had four media outlets out to the event.

**CAUS** met on **Sept. 29<sup>th</sup> and 30<sup>th</sup>** in Lethbridge to create our attack position on ICR and our vision of PSE in the future. Although it is still in the works we are lobbying on the points of increasing base operating funding to account for the 19% increase in enrolment over the past ten years. This money should be put toward increasing and improving student space, classrooms and hiring the best professors in teaching and research.

We're also advocating a 10% rollback in tuition with a vision for creating the most affordable tuition in Canada, as Klein promised.

Thirdly we're lobbying for the loans system to be changed to include a higher percentage of grants, and to allow all students into the financing system.

Finally we're lobbying for the government to create an endowment system for each university to build a reserve for operating expenses and educational adjustments in the future.

We will be creating a policy paper on ICR that will be distributed to all MLA's in response to learning about a pro ICR paper that has been circulated.

We are also developing more firm positions on how to bring post secondary to aboriginal students and rural students.

Graham, Don and myself met **with Tory MLA Ray Danyluk and Minister Hancock** last night to discuss the review process and our visions for PSE. The results were not inspiring, but not entirely crushing. Hancock seems to be keeping his hands off the Steering Committee, for better or worse. We'll have a debrief meeting to see where we can go from here.

**UPass:** Don Iveson attended the regular UPass meeting in my absence last Thursday. Don has done a comprehensive analysis on the UPass costing and brought up his concerns at the meeting, to find that the University administration has those same concerns. We're hoping this will result in a more solid position to approach the city for funding.

**Campus Campaigns:** Our first event day was last week. We had to cancel two events due to low attendance, but the David Schindler event went very well and we're slowly growing a volunteer base and a network of emails to connect groups together.

I'm launching a series of forums, I might call them town halls, with faculty associations to start the tuition campaign. Hopefully by the end of October we will be able to start forums similar to the PIA event in each faculty to discuss the review and the tuition problem.

**Coming Up: Wednesday October 5<sup>th</sup>.**

The Question is...Ethics with a debate on the legalization of marijuana with Tim Peppin at 2:30. Environmental Ethics is at 3:45. And the ethics of pharmaceuticals is at 500. It's all in Dewey's

Submitted: October 3, 2005

Good Evening Council,

I was a presenter at the Student Distress Centre **Campus Crisis Chat launch**, and provided several interviews. The **Campus Food Bank** was also receiving many interviews due to their spike in usage. I met with other **Service Directors** and helped develop a resolution on how they should handle media contact. I contributed to updating the services section of the **COFA Manuel**. I've been busy with interviews for **ECOS AD, Orientation Volunteer Coordinator**, and **Orientation Programs Coordinator**.

There have been several meetings on bars, especially the LHSA **Ship Night**. The WOW budget will soon be finished. Investigating **eco-discounts** in SUB with the Manager of Facilities & Operations, I will have these implemented at Juicy and SUBmart as well.

I attended the Political **Policy Development** meeting, **SAC** and the end of **CAC**, and held my first post-WOW meetings of the **Student Life committees**. Along with NAIT and GMCC, I was involved in a **Bar Security** meeting at City Hall. It was hosted by Councillors Leibovici and Krushell, with a special guest appearance by Mayor Mandel. Other meetings include General Faculties Council and Alcohol Policy Review Committee. After going to the H.M. Tory Lecture (Margaret MacMillan), I am looking forward to kicking off the Revolutionary Speakers Series (more on that later). I am currently involved with the Vitamin C: Health Promoting Universities Conference.

Several events I was invited to include being a judge at the SADD Battle of the Bands, serving first year students at an Engg BBQ, and being a judge at Anchor Splash. I was also honoured to be present at President Indira's Installation Ceremony.

Our Orientation/WOW **Volunteer Appreciation Party** was excellent, thanks to all of the hard work of AVPSL Peter Haggard, former OVC Dranna Brown, and Powerplant staff.

REPORT OF THE VICE PRESIDENT OPERATIONS AND FINANCE

---

*October 4, 2005*

Hello Fellow Councillors,

This is a week marked by no small degree of anticipation as we are expecting not only newly **revised financial statements** (special thanks to finance rock stars GM **Bill Smith** and Sr. Manager Finance and Administration **Anita Kuper**), but **month end variances** as well. This will tell us how well we've done over the past month, after our first big business month of this year's budget cycle. I've also been preparing a **short report on DFUs**, which will outline my recommendations on the handling of our internal dedicated reserves. We are still waiting on some information from RBC before I finalize. Lastly, once BFC meets, there are some **Budget Process** issues which need to be addressed as well as the matter of **operating fees**.

I await your questions in question period.

**Report to Council (SAC 2005-03)**

SAC met with 6 members: the VPSL, Coucillors Eruvs, Gordon, Khanna, Patz, and myself.

I updated the committee on the current state of policy development. Basically, we still do not have a format for creating policy, but we can still create it using our own format.

At the policy development meeting, the chairs were told to decide exactly what issues the committees could possibly pursue, and create an outline of everything possible that the committee can focus on, basing everything on the committee mandates in bylaw 4000. We looked at the current Students' Union policies and looked at services offered by the University and Students' Union to accomplish this. We generated some ideas, but because the list of services was quite long, we decided that we would like to critique the services further and then discuss our ideas at the next meeting, and finish the committee mandate then.

Finally, SAC discussed the priorities for the year. They are: an overall service review, the quality and cost of food services, and alcohol and drugs. We will discuss these in more detail next week, when we have finished looking through the services.

Our next meeting will be Tuesday October 11, 2005 at 17:30 in SUB 6-06.
