

STUDENTS' COUNCIL LATE ADDITIONS

Tuesday March 23, 2010
Council Chambers 2-1 University Hall

LATE ADDITIONS (SC 2009-26)

2009-26/1 SPEAKER'S BUSINESS

2009-26/2 PRESENTATIONS

2009-26/3 EXECUTIVE COMMITTEE REPORT

2009-26/4 BOARD AND COMMITTEE REPORTS

2009-26/5 QUESTION PERIOD

2009-26/6 BOARD AND COMMITTEE BUSINESS

2009-26/7 GENERAL ORDERS

2009-26/7a **FENTIMAN/COX MOVE THAT** Students' Council approve Bill #33 in first reading based on the following principles:

The Students' Union shall not allow for the introduction of a dedicated fee unit if the purpose of the fee is not to:

- a) directly and primarily benefit undergraduate students at the University of Alberta in their pursuit of a post-secondary education, or
- b) eliminate obstacles for undergraduate students in pursuit of a post-secondary education at the University of Alberta.

To: Students' Council, Executive Council

Thank you for your attention to this matter. DIE Board is mandated under Bylaw 1500 to include at least 8 and no more than 14 members, including a Chief Tribune and two Associate Chief Tribunes.

Currently, DIE Board has 12 members, including the Chief and one Associate Chief Tribune. At the end of the academic year, 7 of those members, including myself and my Associate Chief, are graduating.

An effort was made over the course of this academic year to recruit additional members, and to invite the existing members to apply for the open Associate Chief position. Those efforts were unsuccessful. As it stands right now, in the fall 2010 semester, DIE Board will consist of at most 5 tribunes, none of whom will be Chief or Associate Chief.

The absence of a Chief or Associate Chief is not problematic from the point of view of hearings: Our procedures allow us to appoint temporary chairpersons for the purpose of hearings. The small number of tribunes does pose a problem, as at least two of our continuing members expect to be studying overseas for the first semester of the 2010/2011 academic year. Also, it will be impossible for DIE Board to convene an appeal panel (as opposed to a panel of first instance) in accordance with Bylaw 1500 until such time as it has at least 8 members.

The absence of a Chief or Associate also poses an administrative problem, as there is no individual responsible for ensuring that the administrative needs of the Board are addressed.

In light of this situation, I have appointed Tribunes Ashvin Singh and Chris Le to serve on the Tribune Selection Committee, and have asked them to take initiative to ensure that DIE Board's membership is brought in line with the requirements of Bylaw 1500 as soon as possible. I am doing this now, before the end of my term, to ensure that this process can start as soon as possible and can continue after my departure uninterrupted.

This letter is written to ask Students' Council and the Executive to take similar steps and work through their representatives on the Tribune Selection Committee with Tribunes Singh and Le to ensure that this situation is resolved as soon as possible.

It would also be helpful if the members of the Students' Union and the Executive could actively recruit appropriate candidates for membership in DIE Board, and refer them to the Tribune Selection Committee. I have asked the current members of DIE Board to do the same.

Jason Morris
Chief Tribune, DIE Board

Prepared by: Nick Dehod, Vice President (Student Life)

To: Students' Council 2009/2010

Dean of Students' Selection Committee

A large percentage of my time this week is dedicated to the Selection Committee for the Dean of Students. It's been an intensive process and I look forward to reporting the outcome at a future Council meeting.

Health & Dental Plan Committee

Before tonight's council meeting we will have had another Health & Dental Plan Committee Meeting. We have had a number of applicants for the committee, which is exciting. Tonight we will be having studentcare.net/works present on usage of the plan this year.

Legislate This!

Thank you to everyone that came out last Thursday. We have received a large amount of media coverage and I do believe this will have an impact on the outcome of the current fee increase discussion. A special thanks to those who offered to act as marshals as we directed people down 88th street and across the bridge.

Nomination Committee/Programming

This is also where some of my time has been dedicated. That said, my nomination committee time is coming to an end as I pass the torch over to the new VPSL Rory Tighe. Rory will soon be an expert when it comes to interview questions and sifting through resumes and cover letters. I wish him the best as he continues to work with our service staff to create next year's team.

Rory and I have also had conversations with the Senior Manager of Programming & Venues about what programming will look like next year. We have been making tweaks to the Student Programmer position and finding extra hours for the job so that we can increase our capacity to deliver quality programming. Based on the conversations I have had with Rory it looks like there will be a lot of really exciting things happening in the programming side of the house next year.

Sustainability Audit Coordinator

The last few weeks we have been discussing the creation of a student sustainability audit coordinator position for the summer. Pending approval of the budget, we will move ahead and begin the hiring process for this position.

Transition

The incoming executive met over the weekend to begin focusing on our goals for next year. It's looking to be a strong team and I'm looking forward to carrying the momentum of this year into the next one. We plan to meet every two weeks for a few hours, and hopefully having a one-day retreat sometime in the middle of April. The emphasis right now is on portfolio-based transition so that the incoming can be brought up to speed with the various issues and responsibilities of the portfolio.

As always, if you have any other questions ask during council, stop by the office, or send me an email at vp.studentlife@su.ualberta.ca.

Subject: 2010 Students' Council and General Faculties Council Election Results

Please find attached the detailed results from the Students' Council and General Faculties Council Election that took place on March 18 and 19, 2010.

The following list contains the name of the successful candidates for Council and GFC seats. Please do not hesitate to contact me at cro@su.ualberta.ca should you have any questions about the results or the elections process. Be forewarned that I have returned to my life as a student, so responses may be a bit delayed.

Congratulations to all those who contested a position!

2010 Results:

Students' Council	General Faculties Council
ALES SC 1 - Natalie Cox	ALES GFC 1 - Airell DesLauriers 2 - Natalie Cox

To: Students' Council

Re: Report to Council

Tuition/Market Modifiers Update

We have had several meetings with members of the Legislature this week, including the Honourable Doug Horner, Deputy Premier and Minister of Advanced Education & Technology. We believe that the last few weeks of lobbying, campaigns and news have had an effect and that things are changing. I wish I had a more concrete update for Council, but I believe I will have one later in the week. If any major changes occur, I will let Council know as soon as they are public.

Legislate This! / CAUS Lobby Conference Debrief

Thank you. For all of you have helped out with our rally at the legislature, thank you again. We had nearly 400 students from across the province come out and send a message. As evidenced above, I think it's working. Below is a listing of media coverage that our wonderful External Communications & Advocacy Advisor, Justin Kehoe, has assembled. Definitely take a look! You can find all of these links at http://delicious.com/su_advocacy.

Also, Duncan Wojtaszek (CAUS Executive Director) collected all mentions of PSE in the Alberta Legislature last week and this week. With the lobby conference and the rally combined, we've brought a lot of attention to PSE in Alberta. I thought you would all find it interesting to peruse. Enjoy!

Hansard – Hon. Doug Horner (Spruce Grove-Sturgeon-St. Albert, PC) – Monday, March 15

Mr. Horner: Thank you, Mr. Speaker. It gives me great honour to introduce to you and through you to members of the Assembly members of the Council of Alberta University Students, or CAUS, representing over 70,000 undergraduate students at the University of Alberta, the University of Calgary, and the University of Lethbridge. They're meeting with many members of the Assembly all week. They are seated in the public gallery this afternoon. I'd ask that each rise as I call their name to receive the warm welcome of the Assembly. They are Beverly Eastham, who is finishing her second and final term as VP external of the U of A Students' Union and as chair of CAUS; Kay She, the outgoing VP external of the U of C Students' Union and vice-chair of CAUS; Zach Fentiman, president of the U of A Students' Union; Jeremy Girard, the outgoing president at the U of L Students' Union; Alex Massé, VP academic at the U of L Students' Union; Hardave Birk, the newly elected VP external at the U of C Students' Union; Duncan Wojtaszek, the executive director of the Council of Alberta University Students;

Taz Kassam, newly elected president at the University of Lethbridge Students' Union; and River Walton, external commissioner of the University of Calgary Students' Union. They are all standing in the public gallery, Mr. Speaker. I'd ask that we to give them the warm welcome of this Assembly.

Hansard – Heather Forsyth (Calgary-Fish Creek, WAP) – Tuesday, March 16

Mrs. Forsyth: Thank you, Mr. Speaker. In 2006 the government committed to implementing a tuition fee calculation policy that capped tuition increases at the rate of inflation for a 10-year period. In November 2009 the minister announced that postsecondary institutions could submit proposals requesting tuition increases for professional faculties. This goes against the very commitment this government made to ease the financial burden on students. My questions are to the Premier. Why did your government's promise to postsecondary students by removing the tuition fee increase policy for legislation . . .

Mr. Horner: Mr. Speaker, if I could correct the preamble, this government did not request proposals from the postsecondaries. The postsecondaries indicated to us that there was a problem with some of their tuition levels in 2004, when we froze tuition rates. All we did was indicate to them that we would entertain receiving those proposals. We have done that. We've had meetings with the students. Some of the institutions have had numerous meetings with the students. We're going to continue to look at those proposals as they come forward.

Mrs. Forsyth: Thank you. Given that postsecondary tuition in Alberta is already the third highest in Canada, will the government stay true to their word and support increases based on the consumer price index per year only?

Mr. Horner: Mr. Speaker, I've been very clear in my response to the CPI cap as being protected. However, if there were issues around errors that were made under that program back in 2004, I think it's prudent for the taxpayer and for the students to be able to look at that so that we can protect the CPI cap going forward.

Mrs. Forsyth: Thank you, Mr. Speaker. Given that students build plans around policy – they are able to work, save, and get financial support based on government policy – what is the point in passing this policy if you’re going to ignore the rules that you’ve already put in place?

Mr. Horner: Well, Mr. Speaker, it would be advantageous if the hon. member would listen to the answers rather than just go back to the script of the question. This is exactly what I’ve said. We are honouring the policy of the CPI. However, in order to ensure that that CPI is there for the rest of the period of time, we want to make sure that we correct the errors in it so that we don’t have to go back and revisit it. We’ve said very clearly to the postsecondaries: this is a one-time adjustment only. We’re not talking about changing across the board. We’re not talking about any of those other things, simply correcting an error, which I believe this hon. member would agree is a good thing to do.

Hansard – Harry Chase (Calgary-Varsity, Liberal) – Tuesday, March 16

Mr. Chase: Thank you, Mr. Speaker. This government’s failure to properly fund the postsecondary system is causing institutions to look at charging students non tuition-related fees of \$500 or more to fill their financial shortfalls. In Alberta, however, students already have the third highest tuition in the country according to Stats Canada. To the Minister of Advanced Education and Technology: can the minister explain why he thinks students should do the job of this government, which is to provide sustainable funding for the postsecondary education system?

Mr. Horner: Well, Mr. Speaker, postsecondary education in the province of Alberta is a partnership between the taxpayer and the students. We have always maintained that an investment in one’s future is an investment in education, probably the best investment they’re going to make in their lifetime. So it’s a partnership. I would say that the CPI cap, which we talked about, is a good way to move forward. Other provinces are removing their caps. We’re keeping ours. I would say that in my discussions with the students over the course of this week as it relates to ancillary fees, we’re going to continue that discussion.

Mr. Chase: Thank you, Mr. Speaker. Why doesn’t the minister move to provide sensible regulations for mandatory fees by limiting the amount that fees can be increased, requiring consultation with students, and ensuring that students aren’t being charged extra fees for basic educational services?

Mr. Horner: Well, Mr. Speaker, I'm surprised that the hon. member isn't listening to what the students probably have told him. We met just the other day, and we talked about that very thing. We are looking at and discussing with postsecondaries how we might be able to deal with one-time issues around IT costs, around various things that aren't necessarily with regard to instruction but might be something that the institution might want to look at in terms of its fixed assets or in terms of supports for students. The Speaker: The hon. member.

Mr. Chase: Thank you. I met with the students this morning, and one of their concerns was having a referendum on all increases so that students would actually have a say in their fees. Will the minister admit that his government's tuition cap policy is meaningless if institutions can simply raise noninstructional fees by unlimited amounts?

Mr. Horner: Well, Mr. Speaker, currently there are regulations in place that do limit some of the noninstructional fees that institutions can levy. We are, as I said, working with the students and the postsecondary institutions to talk about how we might build some fences, if you will, around things that are outside of those regulations. To suggest that we're moving away from the policy that we've had before is ridiculous.

Hansard – Heather Forsyth (Calgary-Fish Creek, WAP) – Tuesday, March 16

Mrs. Forsyth: Thank you, Mr. Speaker. In 2008, after consultation with postsecondary students and elected student representatives, the Premier and the government committed to capping tuition fee increases to the consumer price index, CPI, until 2016. In 2009 the Premier wrote to the Council of Alberta University Students. My government continues to support initiatives contained in the Affordability Framework, including the Tuition Fee Policy. The Government of Alberta would not consider revising the Tuition Fee Policy without consulting with key stakeholders such as the student organizations that you represent. Not surprisingly, Mr. Speaker, the Premier broke this promise just two months later and announced that universities and colleges could submit proposals to hike tuitions for professional faculties across this province. Currently tuition fees in Alberta are the third highest in Canada, and for many students the cost of postsecondary education is becoming unaffordable. This

creates a big problem for many Albertans. Students must work hard to get good grades and to make the most of the very important investment that Alberta's taxpayers make in our education and advanced education systems. All educators must do their best to make sure that students are performing and that we truly do provide them with a world-class education.

The proposed increases create even more uncertainty for the families and students that have made financial sacrifices based on the government's promise to cap tuition increases. Given that this government has introduced legislation to make Alberta more competitive, wouldn't it make sense to look ahead and make the postsecondary system more competitive as well? Mr. Speaker, we all know that a good postsecondary education will be key to the success of Alberta in an increasingly competitive global market. On behalf of students across this province I challenge the government to keep its promise and maintain the current tuition increases to the CPI until 2016 and allow all Albertans the opportunity for affordable and accessible postsecondary education.

Hansard – Brian Mason (Edmonton-Highwoods-Norwood, NDP) – Thursday, March 18

Mr. Mason: Thank you very much, Mr. Speaker. It's my pleasure to introduce to you and through you to all members of this Assembly a number of postsecondary students, who are here as my guests, from the Legislate This! rally that's taking place outside the Legislature. My guests are concerned that increased education fees will create even more barriers for students looking to obtain a postsecondary degree and threaten to undermine the quality of education offered for years to come. I'm pleased to have my guests join us today and participate in our democracy. They are seated in the members' gallery, and I'd ask that they now rise and receive the traditional warm welcome of this Assembly.

Hansard – Harry Chase (Calgary-Varsity, Liberal) – Thursday, March 18

Mr. Chase: Thank you, Mr. Speaker. Education equals economy. Three years ago this government promised stability in postsecondary education for a decade. Instead, students outside this House and across our province are seeing their bursaries dwindling, their debt growing, their fees rising, and could face tuition increases in the thousands of dollars next year. To the Minister of Advanced Education and

Technology: how can this minister justify downloading postsecondary education costs, especially on middle-class families, that are already stretched too thin?

Mr. Horner: Mr. Speaker, over the last five to six years our operating grant increases to postsecondaries have been more than 42 per cent. I don't believe there is a jurisdiction in Canada that has put the amount of capital into spaces and access that this government has. In fact, today, even during these economic times that we have, we're over a billion dollars in capital infrastructure going in the ground as we speak, and that is a commitment to education and postsecondary.

Mr. Chase: Thank you, Mr. Speaker. Alberta has the lowest postsecondary enrolment, and it will get worse if these hikes continue. When the minister reaches a decision on tuition hikes, will he bring those increases to this Assembly for a vote so that Albertans from every riding in this province know where their member stands on affordable postsecondary education?

Mr. Horner: Mr. Speaker, the hon. member is talking about tuitions. Tuitions in the province of Alberta are capped to the CPI. They will be approximately 1 and a half per cent across the board across the province. There are some instances where the institutions approached us and said, "We think you made a mistake when you froze tuition in 2004," another good policy decision by this government taken in 2004. At the time it was the right thing to do. But did we review all of the tuitions across all 3,700 different programs and offerings? We did not, so there may have been some anomalies. We're looking to correct the mistake that may have happened to protect the CPI cap going into the future.

Mr. Chase: Thank you, Mr. Speaker. It appears that promises in this province seem to have time limits. Will the minister at long last spell out a firm timeline for when he will make these critical financial decisions, or is he intentionally trying to run out the clock on the spring sitting of the Legislature? Mr. Horner: Mr. Speaker, the hon. member was available at our estimates. I recall that during a couple of the 10-minute periods during our estimates he didn't want to do the banter back and forth but simply read from a sheet a whole list of questions, which department staff are spending a lot of time on looking at how we're going to answer. It would have been a great time for him to ask that exact question, about where we're going with the budgets and how we're doing these things in terms of the market modifiers

that have been presented to us. As I've said in this Assembly before, we will be making those decisions within the next few weeks.

Hansard – Wayne Cao (Calgary-Fort, PC) – Monday, March 22

Mr. Cao: Well, thank you, Mr. Speaker. Many postsecondary students across Alberta are concerned about their current financial situation and accumulating debt. My question today is to the hon. Minister of Advanced Education and Technology. Given the current economic recession, job prospects are uncertain. Many graduates are having to continue their studies. What assistance can new graduates get to pay their student debts and tuition fees if they extend their studies?

Mr. Horner: Thank you, Mr. Speaker. Certainly, we've been working with the students over the last six years, the last three on the affordability framework. As resources have allowed us, we've been ticking off the things around affordability that are important to the students. Obviously, in Budget 2010 we made some improvements to the programs, including higher lifetime loan limits and a new, more flexible repayment assistance program. Really, in answer to the hon. member's question, the new, flexible repayment program is going to be very valuable to our students in the coming years.

Mr. Cao: Thank you, Mr. Speaker. To the same hon. minister: what efforts are being made to regulate mandatory noninstructional fees at Alberta postsecondary educational institutions?

Mr. Horner: Mr. Speaker, we have had this question in the House a few times now as it relates to ancillary fees. Most of these fees that we're hearing about are just proposals at this stage. We are keeping a close eye on that situation. We do want to ensure that any fees that are of an instructional nature are certainly kept within the tuition fee policy. If there is a need – and I've said this to the students – to regulate noninstructional fees, we've actually asked the students to work with us and the postsecondaries to draft a possible regulation.

Mr. Cao: Thank you, Mr. Speaker. To the same hon. minister: how do the current loan relief program and the new repayment assistance program meet the needs of students with a large student debt?

Mr. Horner: Mr. Speaker, the focus is on providing all of the eligible students with the assistance that they need to help meet their costs, and that includes the cost of tuition, the cost of living, the cost of books, all of those things. We ensure that the debt above a set of thresholds is actually forgiven for qualifying grads to help ensure that the students have a manageable debt load at the end of their studies. The repayment assistance plan is going to provide even more flexibility to grads struggling to make loan payments as they enter the workforce, and we'll continue to monitor that affordability framework.

Hansard – Kyle Fawcett (Calgary-North Hill, PC) – Monday, March 22

Mr. Fawcett: Thank you, Mr. Speaker. With the close proximity of the University of Calgary to my constituency I've been getting lots of feedback from students about the proposed market modifiers for some postsecondary programs that will result in huge tuition increases. My question is to the Minister of Advanced Education and Technology. What is driving the postsecondary institutions to come forward with these proposals? Is it because there was already a gap between revenues and the cost of delivering this program, or is it a result of the tuition cap policy?

Mr. Horner: Thank you, Mr. Speaker. The proposals are being presented to us based on what has happened over a number of years with the tuition fee policy in the province of Alberta. At the outset let's be clear: this is about something that at this point in time is speculative. These are proposals that have come forward; we're reviewing them. Some institutions have put forward proposals where they believe that an anomaly existed when we froze tuitions back in 2004. We're still reviewing those proposals.

Mr. Fawcett: Thank you, Mr. Speaker. I appreciate that answer. Again to the Minister of Advanced Education and Technology: is a tuition cap policy appropriate when we're competing with other jurisdictions who don't have such a policy while also striving to maintain high postsecondary program standards?

Mr. Horner: Mr. Speaker, that's an excellent question. It is a very difficult balancing act. We look at the affordability framework with our students. We look at the partnership between postsecondary students, the taxpayers, and society and the economy. We have to balance those things. We are as a government fully committed to the tuition fee policy. We have a top-notch, top-quality postsecondary education

system. We need to make sure that it's accessible and affordable. By limiting annual tuition fee increases to the consumer price index, we're ensuring that the increases are predictable so that students can plan.

Mr. Fawcett: Thank you, Mr. Speaker. I do appreciate the minister's comments there, particularly at the end, because I know that a lot of my constituents have come to me lately with some concerns about drastic increases in fees. We've seen that on the Alberta nongroup plan benefits. My question is to the Minister of Advanced Education and Technology in his capacity as Deputy Premier. What is the overall strategy that this government is doing to protect our constituents from massive increases in one year?

Mr. Horner: Thank you, Mr. Speaker. There's kind of a mixture of apples and oranges when we're talking about Blue Cross coverage, but those are costs and fees that are of a different nature. I can only say that as it relates to regular fees that the government has control over, we try to make sure that it's a recovery basis. We try to ensure that it's fair, that it's reasonable. Certainly, sometimes you have to catch up if you don't do it on a regular basis, and that's something we need to take into consideration. The only thing I can say on the tuition fee policy is that we stand by it a hundred per cent. This year the institutions wanted to make cases for exceptional fees. We're going to look at and review those. That's the only thing I've agreed to.

Upcoming Dates of Significance

Friday, March 26:

Board of Governors Finance & Property Committee – 7:00 AM*

Board of Governors Meeting – 8:00AM

Yours,

Zach

* BFPC has been delayed as the committee members felt that there were too many variables in flux (Market modifiers, user fees, EPE) to comfortably recommend the university budget to the Board of Governors. The original timeline was to have the recommendation passed by BFPC on March 11, 2010. I feel this was an important decision, and I support the tabling of the budget while the variables stabilize.

Report to Students' Council

March 23, 2010

Beverly Eastham, Vice-President (External)

Hello Council,

After several incredibly busy weeks my schedule is finally starting to quiet down. This report will attempt to cover the many things that have been going on in my portfolio over the last five weeks, but will certainly not be a comprehensive overview. I am working on a series of year end reports and recommendations and will try to provide council with all of the relevant information coming out of my reflections on two years in office as they emerge in written form. If you have any questions that you would like more immediate answers to please call, email or book a meeting. Thanks!

Meetings

Past Meetings (Highlights)

- Feb 17: Meeting with Hon. Alison Redford's (Minister of Justice and Attorney General) staff regarding elections and student voting
- Feb 17: Public Interest Alberta Town Hall (spoke as PSE student representative)
- Feb 18: Meeting with Ryan Hastman, Conservative Candidate for Edmonton-Strathcona
- Feb 22-Mar 2: Running U-Pass Campaign
- Feb 22: CAUS Teleconference
- Feb 23: CASA Governance Officer Call
- Feb 26: Senate Plenary
- Feb 26: Search Committee for UofA Vice President (External Relations)
- Mar 2: CASA Governance Officer Call
- Mar 3: Meeting with SFAIC re: Student Financial Aid
- Mar 5: Exec Meeting
- Mar 6-13: CASA Lobby Conference
- Mar 14-18: CAUS Lobby Conference
- Mar 18: 'Legislate This!' Student March to the Legislature
- Mar 19: Exec Meeting
- Mar 22: Phone meeting with Spencer Keys, CASA Policy and Research Officer
- Mar 22: CASA Governance Officer Call
- Mar 22: Tour of Edmonton Clinic North

Upcoming Meetings

- Mar 23: Dean of Students Selection Process: Candidate Meeting 2
- Mar 24: Dean of Students Selection Process: Candidate Meeting 3
- Mar 25: CAUS Changeover Retreat Planning Meeting
- Mar 25: CAUS Summer Student Interviews
- Mar 25: Incoming/Outgoing Council Questions Meeting
- Mar 26: Meeting with Niki Ashton, MP, Churchill and NDP PSE Critic

Mar 29: Exec Meeting
Mar 29: CASA Governance Officer Call
Mar 29: SU Awards Night
Mar 30: VPX likely out of the office for the day
Mar 31: Student Resources Task Force Meeting
Apr 1: Search Committee for UofA Vice President (External Relations)
Apr 1: CASA Special General Meeting via Teleconference

External Updates

Council of Alberta University Students (CAUS)

www.caus.net | twitter: #caus10

As you know, CAUS just wrapped up our provincial lobby conference. Although CAUS is in the process of winding down for the year there is still quite a lot of ongoing work to be done in regards to the market modifier and non-instructional fee proposals:

CAUS Lobby Conference

Zach, Aden and I took part in the CAUS lobby conference which ran from March 14-18. During the course of our three and a half days of meetings (Monday to Thursday) the delegates who attended the conference were able to meet with roughly 40 MLAs. Our delegates also met with other key post-secondary education stakeholders and were in attendance at the 'Legislate This!' rally on Thursday.

I attached my schedule for the conference to the report I sent out to Council last week, so if you are looking for a detailed list of all of the individuals I met with during the conference you should check there for it. However, I would like to highlight the fact that CAUS delegates met with members from all four of the political parties in Alberta (Conservative, Liberal, NDP, Wildrose Alliance), as well as the Independent Member, Guy Boutilier. CAUS met with Minister Horner and the Ministry Staff on Monday, March 15 and then again with the Ministry Staff on Wednesday, March 17, both of which were incredibly valuable meetings.

Draft of Possible Non-Instructional Fee Regulation

One of the things that came out of our meeting with the Ministry was a request for CAUS to come up with a proposal for what our members think a draft of a regulation for non-instructional fees would look like. This is not something that CAUS is usually asked, and we are already starting to work on our recommendations, however, the timeline is quite short and there are many, many considerations that need to go into any kind of proposal that we forward on to the ministry.

Join Together Alberta Campaign

CAUS is part of the Post-Secondary Education Task Force of Public Interest Alberta (PIA) and is therefore involved in the latest campaign that PIA has launched which is called "Join Together Alberta". You can check out the campaign by visiting www.jointogetheralberta.ca.

Some of the recent activities of this campaign involved a series of Town Hall meetings across the province. I was involved in the Town Hall that was held on February 17 in Edmonton as part of a panel of speakers. The 'Join Together Alberta' campaign also held a rally at the Alberta Legislature (similar to our 'Legislate This!' rally) this past Saturday. The rally had similar turn out to our own, but involved individuals from a broad range of public service sectors.

CAUS Summer Student

CAUS is in the process of hiring a summer student, although we have yet to hear if we have actually secured a STEP grant to help us cover the wages of this position. I shall keep Council apprised of both the hiring process and any news from the STEP program.

CAUS Changeover Retreat

I will be working with Duncan for the next few weeks to plan the CAUS changeover retreat which will be held in Canmore from May 6-9. Changeover is an incredibly valuable chance for our outgoing members to pass on valuable information acquired through the year to the incoming members and for the incoming council to set their goals and work-plan for the year ahead of them.

Canadian Alliance of Student Associations (CASA)

www.casa.ca | twitter: CASAdaily, #casaacae

CASA has also just finished hosting their annual lobby conference which I attended with Chris Henderson. The National Director, Arati Sharma, has decided not to pursue a second term with CASA so the membership is also in the process of setting up a hiring committee for this position.

CASA Lobby Conference

The CASA lobby conference was held from March 14-18 in Ottawa (obviously). As I have not previously sent council the schedule of individuals that I met with during the three days of lobbying I shall provide you a summary of them in this report, which you will find below:

- Anthony Rota (LPC) Nipissing-Timiskaming, ON, Vice-Chair: House of Commons Standing Committee on Industry, Science and Technology
- Laurie Hawn (CPC) Edmonton Centre, AB
- Linda Duncan (NDP) Edmonton-Strathcona, AB
- Kathryn McDade, Assistant Deputy Minister, Ministry of Human Resources and Skills Development Canada
- Copyright Meeting with Industry Canada/Ministry of Canadian Heritage
 - Barbara Motzney, Director General, Copyright Policy, Ministry of Canadian Heritage
 - Drew Olsen, Director of Legislation and Negotiations, Copyright Policy,

- Ministry of Canadian Heritage
 - Gerard Peets, Director, Copyright and International Intellectual Property Policy Division, Industry Canada
 - Jean-Arpad Francais, Senior Advisor, Director, Copyright and International Intellectual Property Policy Division, Industry Canada
 - Albert Cloutier, Director, Copyright Policy, Industry Canada
- Phil Harwood, Director of Policy, Office of Diane Finley, Minister of Human Resources and Skills Development Canada
- Ryan Sparrow, Director of Communications, Office of Diane Finley, Minister of Human Resources and Skills Development Canada
- Academic Materials, Textbooks, and Copyright Lunch:
 - Charlie Angus (NDP), Timmins-James Bay, ON, Critic for Heritage, Culture and Digital Issues, member: House of Commons Standing Committee on Canadian Heritage
 - Peter Braid (CPC), Kitchener-Waterloo, ON, member: House of Commons Standing Committee on Industry, Science and Technology
 - Mike Lake (CPC) Edmonton-Mill Woods-Beaumont, AB, Parliamentary Secretary to the Minister of Industry, member: House of Commons Standing Committee on Industry, Science and Technology
 - Gordon Brown (CPC) Leeds-Grenville, ON, member: House of Commons Standing Committee on Industry, Science and Technology
 - Marc Garneau (LPC) Westmount-Ville-Marie, QC, member: House of Commons Standing Committee on Industry, Science and Technology
 - Royal Galipeau (CPC) Ottawa-Orleans, member: House of Commons Standing Committee on Canadian Heritage
- Brent Rathgeber (CPC) Edmonton-St. Albert, AB

Canada Student Survey

The results from the survey that I talked to Council about during the first half of the year are being compiled into a report that will be coming out in three parts. The first report is out now, and you may have seen my comments on it in the Gateway recently, but I will send the actual report out to council so that you can read through it for yourself. Report One looks at Summer Work and Paying for PSE, Report Two will look at debt and student perceptions of debt and Report Three will look at student financial literacy.

As Always,

Beverly Eastham, VP External

23 March 2010

Dear Students' Council,

As this is the third week in row of providing weekly council reports, I thought, it might be more helpful for all concerned if I were to provide you with the backbone of my final report, instead of a conventional report. This gives you an opportunity to ask questions and give feedback on four key areas: Successes, Failure, Challenges and Opportunities. I hope you find this format and information helpful. No categories, especially that of failures and opportunities, are conclusive.

Failures: ****These failures are expressly my own, not of the Students' Union.***

- The most heartbreaking failure has certainly been that of the collapse of the SSA in the first week of September. Indeed, I think my greatest failure of the year has been my inability to engage science students in the process. That eats at me every day, and I'll carry that with me for a long time. Now, I think we have an excellent proposal, the debts are paid and everything is ready to go for next year, but it was a rocky journey indeed.
- We did not even begin to address, as a council or as an exec how big the institution is. The only area where we experienced. The work we have done for campus associations is no where it needs to be. I did not put nearly enough time into this.
- The absence of a CRAM conference this year, partially as a lack of prioritizing on my part, partly because of the phase the lobbying is at, and partially because of funding ability in the part of the bookstore and the relationship with the bookstore.
- Stressed relationships with certain faculty associations as a result of long and complicated tuition conversations.
- The existence of the two established subcommittees of the Council of Faculty Associations and the entire advocacy structure they need to develop.
- I could go on at great, great length. And within each of these failures, there are many mistakes and I can elaborate on them for you at any time convenient.

Success: ****Note, not success of mine, but rather the academic parts of the Students' Union***

- Having a contested race in the academic portfolio, with two great campaign teams
- Removal of requirement for sick note policy at Academic Standards Committee
- The success of the Academic Plan submission
- The collaborative and consultative process of the Academic Plan and the advent of the 'Acadream Team'
- The new infrastructure for Student Governance Support in the form of a new position
- The Results of the Academic Materials Consultant with the page-by-page analysis accessible for CRAM next year
- The Office of Undergraduate Research

- The Possibility of an Undergraduate Research Conference (*pending the prioritization of the next exec*)
- A letter to the Board of Governors with Feedback for the Academic Plan, the first advocacy step of the 14 faculty associations
- The Rules, Regulations and Runaround Project coming out of the Academic Plan
- Much closer and better relationships with a few more faculty associations we haven't before
- '10 Things you Should know' Etiquette project to consolidate information for Students' Union
- Presentation of the 'Who is a student' information to The Committee on the Learning Environment. Changing our relationship to University Governance.
- More student volunteers than ever before at the Festival of Teaching (***And please note, that this not thanks to me but rather to all of you, so congratulations council.***)
- Signing the conditions of probation for the new Interdepartmental Science Student Association

Opportunities:

- A new Vice Provost (Academic) Please note the name change. The movement to Dean Colleen Skidmore from Dr. Olive Yonge is a great opportunity to redefine the portfolio we work really closely with on the curricular side of the house.
- The terrible budget situation is also a great opportunity. Dr. Amrhein has committed taking the opportunity in these difficult budget times to seriously look at the culture, which doesn't cost a thing, and could dramatically improve the quality of the undergraduate experience.
- Some great capital projects are starting to come online and if what we have identified as pedagogical sound teaching practices are working, we can build on those successes.
- An academic plan year, as it looks like 2010 will be, is obviously the best possible opportunity to examine our priorities as an institution.

Challenges:

- The budget, of course, and the loss of funding such as SIF (special initiatives funding.) This is not set in stone, but the discretionary funding for projects on the scale of CSL circa 2005 or *The Writing Centre* are behind us for a while.
- The layoffs as a result of the 5% budget cut will make what is normally a very idealistic process, academic planning, a sober occasion indeed. Morale around the university is likely to be low.
- Some of the Faculty Association relationships are facing some stress from serious disagreements on tuition and I think some lack of clarity on roles.
