2010-17/6a  HUYNH/RAO MOVE THAT upon the recommendation of the Policy Committee, Students’ Council approve Bill #21 that Students’ Council adopt the political policy, Sustainability, in second reading.

Principles:

1. that the Students' Union shall encourage the University to develop innovative solutions to environmental issues through the School for Energy and the Environment;  
2. that the Students' Union shall advocate to the University for the continued adherence to the highest environmental standards in its operations;  
3. that the Students' Union advocate for the inclusion of topics
in sustainability in course curriculum where appropriate;
4. that the Students' Union seek to actively engage the student population in sustainability initiatives and education.
5. that this policy expire on April 30th, 2014.

Please see document SC 10-17.01

2010-17/6b **KUSMU/ISKANDAR MOVE THAT** upon the recommendation of the Bylaw Committee, Students' Council approve Bill # 22 in second reading. Principles:

1. That the Elections Review Committee consist of five (5) members of Students' Council, including up to a maximum of one (1) member from the Executive Committee, and the Chief Returning Officer as a non-voting member.

Please see document SC 10-17.02

2010-17/6c **COX/ROSS MOVE THAT**, upon the recommendation of the Elections Review Committee, Students' Council approve Bill # 23, that Students' Council adopt a Single Transferable Vote Electoral Method based on the following principles:

1. Balloting shall be conducted by preferential balloting, in which each voter shall rank his/her choices for each position using natural numbers with one (1) representing the first choice, and increasing numbers representing less desirable choices.
2. Voters shall be entitled to mark as few as zero candidates for any given position or as many as all of them.
3. Once the total number of valid ballots is established for each race, the minimum number of votes required for a candidate to be elected is calculated. This minimum number of votes shall be determined by the sum of one plus the quotient of the total number valid ballots cast divided by the sum of the number of seats being contested plus one, with remainders being ignored.
   \[ n = 1 + \left[ \frac{\text{Votes}}{(\text{Seats} + 1)} \right] \]
4. All ballots shall be counted and each ballot is allocated as a vote to the candidate who is indicated to be the voter’s first preference.
5. If a candidate on the first count has a number of first preference votes exactly equal to the minimum number of votes needed to be elected, that candidate is declared elected.
6. If a candidate on the first count gains more than the minimum number of votes needed to be elected, the candidate is declared elected, and the number of votes in excess of the number needed to be elected is recorded as a surplus. All of the elected candidate’s ballots are then re-examined and assigned to candidates not yet elected according to the second preferences marked on the ballot at a fractional transfer value. The transfer value shall be determined by the quotient of the surplus votes cast for the elected candidate divided by the total number of votes received by the elected candidate.
7. If two or more candidates on the first count gain more than the minimum number of votes needed to be elected, all of those candidates shall be declared elected. The ballots of the candidate with the largest number of first preference votes will be re-examined first and assigned at a transfer value to candidates not yet elected according to the second preferences marked on the ballots, or the next available preference if the second preference candidate has already been elected. The ballots of the other
candidate(s) will then be re-examined and their surpluses distributed in order according to the number of first preference votes each candidate received.

8) If a candidate reaches more than the minimum number of votes needed to be elected as the consequence of a transfer of votes from an elected candidate, the number of votes in excess of the number of votes needed to be elected will be transferred to other candidates. This transfer will be to the next available preference shown on all of this candidate’s ballots. The transfer value for the candidate’s first preference ballots is the quotient of the surplus votes cast for the elected candidate divided by the total number of votes received by the elected candidate, and the transfer value for each ballot previously received from one or more elected candidates is the quotient of the product of the surplus votes cast for the elected candidate multiplied by the transfer value of the ballots received by the previously elected candidate, all divided by the total number of votes received by the candidate.

9) In the event that no candidate has more than the minimum number of votes required to be elected, the candidate with the smallest number of votes is eliminated. All ballots cast for that candidate are transferred to candidates who have not been elected or eliminated according to the next available preference shown on the eliminated candidate’s ballots. The eliminated candidate’s first preference ballots are transferred to the next available preference at full value, while ballots received from previously-elected or eliminated candidates are transferred at the transfer value at which the ballots were received.

10) The ballot-counting process as set out in principles 6-9 shall continue until such a point as all but one of the candidates to be elected have been elected, and only two candidate remain in the count. At this point, the candidate with the most votes is declared elected.

11) If, during the transfer of preferences, a ballot paper does not indicate an available preference, the ballot is put aside as exhausted. This can occur because:
   a. the voter only indicated one, or a small number of preferences, or
   b. all the preferred candidates have already been elected or eliminated.

12) Where two or more candidates have the same number of first preference votes at the end of the first count, and this number is more than the minimum number of votes necessary to be elected, the candidate whose surplus votes are re-distributed first will be decided in the following manner:
   a. If the Chief Returning Officer is a Students’ Union member eligible to vote in that race and has ranked one of the tied candidates as the first preference on the C.R.O’s ballot, then that candidate’s surplus votes shall be redistributed first.
   b. If the C.R.O is ineligible to vote in the race, or has not ranked one of the tied candidates as the first preference, then the candidate whose surplus votes are re-distributed first shall be determined by a random or quasi-random method selected by the C.R.O.

13) Where no candidate has a number of first preference votes equal to or greater than the number of votes necessary for election at the end of the first count, and two or more candidates have the same number of first preference votes, this number being the smallest number of first preference votes gained by any candidate, then the candidate who is eliminated first shall be decided in the following manner:
   a. If the Chief Returning Officer is a Students’ Union member eligible to vote in that race and has ranked one of the tied candidates as
the first preference on the C.R.O’s ballot, then the candidate who was not indicated as the first preference of the C.R.O shall be eliminated.

b. If the C.R.O is ineligible to vote in the race, has not ranked one of the tied candidates as the first preference, or in the event that more than one candidate remains tied following the provision of principle 14) a, then the candidate who is eliminated first shall be determined by a random or quasi-random method selected by the C.R.O.

14) If, at any stage of the count other than the first count, two candidates have the same number of votes, the candidate who is declared elected first, or who is not excluded will be:
   a. the candidate with the larger number of votes in the first count in which a differential existed between the number of votes received by each candidate,
   b. the candidate whose name is ranked highest on a ballot cast by the C.R.O, if the C.R.O is a Students’ Union member eligible to vote in that race, and no differential in the number of votes has existed between the candidates at any preceding count, or
   c. the candidate whose name is selected by a random or quasi-random method selected by the C.R.O, if the C.R.O is ineligible to vote in the race and no differential in the number of votes has existed between the candidates at any preceding count.

I am not here for me.

I will keep that promise to make decisions with their interest in mind.
I will vote after knowing the facts, not before.
I will use Robert’s Rules for their purpose, not my own.
I will oppose ideas, not people.

I will represent my fellow students’ interests, not my own.
I am not here for me.
