We would like to respectfully acknowledge that our University and our Students’ Union are located on Treaty 6 Territory. We are grateful to be on Cree, Dene, Saulteaux, Métis, Blackfoot, and Nakota Sioux territory; specifically the ancestral space of the Papaschase Cree. These Nations are our family, friends, faculty, staff, students, and peers. As members of the University of Alberta Students’ Union we honour the nation-to-nation treaty relationship. We aspire for our learning, research, teaching, and governance to acknowledge and work towards the decolonization of Indigenous knowledges and traditions.

To: Students’ Union Council
Re: BoG Rep 2020/2021 Report 12 - Appointment and Affairs

Dear Council,

Board

1. **Vice-President External Relations Appointment:** on Monday of last week the board met to discuss and vote on the candidate, Elan MacDonald’s, appointment. More information can be found on [UAlberta’s Quad blog](http://www.ualberta.ca/quad/). Her portfolio will amalgamate all university communications to streamline messaging to the public which may be helpful as long as all voices are considered.

2. **Board Reputation and Public Affairs Committee:** meeting this Friday, we will be updated on UAlberta’s brand development initiative, which the Students’ Union will be consulted about. We will also discuss UAlberta’s [innovation website](http://www.ualberta.ca/innovation) that was launched to emphasize the university’s importance in this time of provincial post-secondary review which I think is incredible as long as the website is well visited. Demonstrating value is critical at this juncture. If ever you are interested in current or past open session minutes for this committee, let me or university administration know at my email below, juli.zinken@ualberta.ca or erin.plume@ualberta.ca.

Not Board

1. **Edmonton City Councillor Forum:** several weeks ago discussions centred around people coming to and leaving Edmonton, an energy transition, student housing and how municipal elections can now be funded anonymously, changing the game and making local support more important. A big takeaway was volunteering for the candidates you believe in and starting this process of engagement earlier rather than later.

Thanks for reading!

University of Alberta Undergraduate Board of Governors Representative
Dave Konrad
KIDD/DHILLON MOVE TO approve first principles of the Health and Wellness Policy

First Principles of renewal for the Health and Wellness Political Policy.
**Political Policy**

**Health and Wellness**

NEW POLICY (All Facts):

General
1. University experience is not limited to academia. Students need support in all aspects of their lives in order to be successful.
2. Student health and wellness includes emotional, mental, physical, spiritual, and sexual health. All these aspects must be respected and acknowledged by both the University and Students’ Union for students to achieve academic success.
3. Student health and wellness is impacted by environmental stressors such as, but not limited to, physical fitness and health, positive building environments, personal loss, surrounding health crises and the status of public health.
4. Student health and wellness is impacted by social stressors such as, but not limited to, availability of clinical services, food security, financial security, inclusivity, and social community.
5. Student health and wellness is impacted by individual stressors such as, but not limited to, accessibility, addictive behaviours, mental health and physical health.
6. Services supporting student health and wellness include, but it not limited to, University Health Centre, Peer Support Centre, the Landing, The Sexual Assault Centre, Community Social Work Team, Counselling & Clinical Services, Healthy Campus Unit, Pharmacy, First People’s House, and the Campus Food Bank.

Food and Nutrition
7. Most reports on nutrition at the University of Alberta report a lack of access to and consumption of healthy foods including fruits and vegetables
   a. 45.4% of students report eating 3 or more servings of fruit and vegetables.
8. Food insecurity is a concern at University of Alberta as, “12.4% qualified as highly food insecure, while another 758 qualified as moderately food insecure, for a total food insecurity rate of 31.6%”
   a. This insecurity is comparable to other universities.
9. Food insecurity is a growing concern as the Campus Food Bank usage has doubled from 2015 to 2020:
   a. These increases took place before the COVID-19 pandemic, but food insecurity grew worse following the pandemic; and
   b. This food insecurity is impacted by intersecting identities, for example, international students make up a significant portion of food bank users.
10. Students have common concerns surrounding food including quality of food on campus, cost, and accessibility to varied kinds of food such as vegetarian and Halal food.
11. 1.9% of students report struggling with eating disorders.
a. This low reporting number may be correlated with the fact that eating disorders are largely considered to be ignored by universities, in both reporting and treatment\(^5\).

12. There is a lack of information about students satisfaction with meal plans, however, student movements have shown wide dissatisfaction with meal plans provided at the University of Alberta.

13. Students report a lack of access to sustainable food options\(^1\).

**Mental Health**

14. Mental health can have a large impact on how students participate in their academic experience.

15. There are numerous factors that contribute to a students’ mental health. This could include but is not limited to: gender and gender identity, sexual orientation, race, indigeneity, disability, residency status, etc.

   a. The World Health Organization states that:

      i. Mental health and many common mental disorders are shaped to a great extent by the social, economic, and physical environments in which people live; and

      ii. Social inequalities are associated with increased risk of many common mental disorders\(^6\).

16. The Mental Health Commission of Canada developed a National Standard for Mental Health and Well-Being for Post-Secondary Students. This lays out the roles and responsibilities institutions should follow for their students\(^7\)

   a. This includes calling for culturally appropriate mental health and well-being support for students.

17. The National College Health Assessment survey found that between 2013 and 2019\(^8\):

   a. Students’ feelings of: overwhelming anger, overwhelming anxiety, so depressed it was difficult to function, very sad, very lonely, overwhelmed by everything to do and that things were hopeless, all significantly increased;

   b. Treatment for panic attacks, depression and anxiety doubled;

   c. Students who attempted suicide, seriously considered suicide, and intentionally self-harmed nearly doubled.

18. Students’ feelings of: overwhelming anger, overwhelming anxiety, so depressed it was difficult to function, very sad, very lonely, overwhelmed by everything to do and that things were hopeless, all significantly increased;

   a. Treatment for panic attacks, depression and anxiety doubled; and

   b. Students who attempted suicide, seriously considered suicide, and intentionally self-harmed nearly doubled.

19. Canada’s Mental Health Strategy includes the following First Nation-specific mental wellness priorities:

   a. Close critical gaps in the continuum of mental wellness services, treatments and supports for First Nations, including traditional, cultural, and mainstream approaches;
b. Disseminate and share knowledge about promising traditional, cultural, and mainstream approaches to mental wellness, such as mental wellness teams and recognizing the role of Elders;
c. Support and recognize the community as its own best resource by acknowledging local knowledge and by developing community capacity to improve mental wellness;
d. Enhance the knowledge, skills, recruitment and retention of the range of service providers able to provide effective and culturally safe services, treatments and supports for First Nations mental wellness; and
e. Strengthen collaborative relationships among federal, provincial, territorial and First Nations governments to improve policies, programs and services related to mental wellness

20. Canada’s Mental Health Strategy includes the following Métis-specific mental wellness priorities:
   a. Consult and engage Métis people to develop a Métis-specific mental health and substance-use strategy;
   b. Build Métis knowledge through research to understand fully the intergenerational effects of colonization and the mental health needs of Métis people today;
   c. Develop, increase and sustain Métis mental health human resources;
   d. Improve access to a full continuum of culturally competent and culturally safe mental health services, treatments and supports for Métis people; and
   e. Develop and strengthen collaborative relationships at all levels of government to advance and improve Métis mental health and well-being

21. Canada’s Mental Health Strategy includes the following Inuit-specific mental wellness priorities:
   a. Close critical gaps in the continuum of mental wellness services, treatments and supports for Inuit, including traditional, cultural, and clinical approaches;
   b. Support Inuit to respond to their mental health needs by drawing on the knowledge and strengths in their communities;
   c. Provide adequate, sustained funding and support to develop the mental health work-force and strengthen recruitment and retention of mental health workers;
   d. Increase the availability of Inuit-specific mental wellness data, research, information, knowledge and training; and
   e. Bring about transformation in mental wellness services through strong partnerships with government, non-government organizations, foundations and the private sector

**Sexual Health**
22. Sexual wellness is part of maintaining overall health. This includes but is not limited to: having access to and utilizing contraception, testing for STIs and treatment and vaccinations for Hepatitis A & B and HPV. As well as having access to information about your sexual health\textsuperscript{10}.

23. The University of Alberta provides access to sexual health services to all members of the university community regardless of sexual orientation or gender identification. This includes access to STI and pregnancy testing, contraception, and examinations\textsuperscript{10}.

24. When surveyed about their birth control and contraceptive habits:
   a. 15.7\% of University of Alberta students report using the morning after pill\textsuperscript{4};
   b. University of Alberta students report using birth control methods including birth control pills and condoms\textsuperscript{4}; and
   c. 0.5\% of students have reported having an STI and 1.6\% of University of Alberta students report having an unexpected pregnancy within the last year\textsuperscript{4}.

**Physical Health**

25. A lack of exercise, adequate sleep and poor eating habits contribute to increased health risks for university students.

26. While it is recommended that university students have 6-8 hours of sleep a night, university students in North America report not getting enough sleep. Lack of sleep or inadequate sleep leads to poor academic performance.

27. University of Alberta Students report a lack of exercise.

28. A minimum of 2 hours of exercise a week is recommended for university students. Balancing extracurriculars, socializing, and academics, means that students will often prioritize these activities over exercise.

29. Diseases such as the common cold, the flu, stomach viruses, and orthopedic injuries were reported as the most common health issues for university students.

**Addiction**

30. 19\% of college students use an illicit drug each year\textsuperscript{11}.

31. College students are also known for misusing prescription stimulants, with 6.9\% of college students stating they used them for nonmedical reasons such as for a study aid\textsuperscript{12}.

32. Students who are part of the Greek system are up to 26 percent more likely to binge drink\textsuperscript{13}.

33. Four out of five college students drink alcohol, according to a report by the National Institute on Alcohol Abuse and Alcoholism.
   a. Two out of five college students met the qualifications of heavy drinkers, meaning at some point in the past two weeks they drank five or more drinks in a row\textsuperscript{14}. 
Spiritual Health

34. During the first three years of university, many students show significant spiritual growth. This can impact other outcomes such as academic performance, satisfaction with university, leadership, psychological well-being, and intellectual self-esteem. 

35. The University of Alberta website provides a faith directory that outlines spiritual care providers for the following religions: Buddhism, Christianity, Islam, Judaism, and Unitarian Universalism.

36. The University of Alberta community includes the Interfaith Chaplains Association. It serves the University of Alberta from the understanding that life, including academic life, is a spiritual journey. The Interfaith Chaplains Association at the University of Alberta is made up of chaplains from a variety of denominations who cooperate with one another to care for the unique needs of the University community.

37. Spiritual care has positive effects on individuals’ stress responses, spiritual well-being, sense of integrity and excellence, and interpersonal relationships.

Social Connection

38. In 2016 more than 66% of Canadian students reported feeling “very lonely”.

39. In addition to academic performance, social connectedness has an impact on students' physical and mental health.

40. Physical spaces such as classroom spaces, outdoor spaces and social spaces have the ability to increase or decrease social connectedness on campus.

   a. Location of multicultural centres or faith centres on campus or outside of campus influences the use of these spaces by students.

41. Language and cultural barriers factor in international students ability to foster more social connectedness on campus. Breaking down these barriers can assist in reducing the social and academic isolation international students report experiencing.

42. Research reports show that students of colour are twice as likely, in comparison to white students, to indicate feeling more isolated on campus.

# Political Policy

## Nonpartisan

### 1st Principles

**POLICY SUPPORT TEAM:** Talia Dixon, Rowan Ley, Andrew Batycki

**POLICY FACTS:**

Preamble: The University of Alberta Students’ Union (UASU) represents all undergraduate students regardless of their political opinions. Similarly, the UASU represents undergraduate students to all levels of government (municipal, provincial, and federal) regardless of the political party in power. For these reasons, it is imperative that the UASU is a non-partisan organization and is perceived as nonpartisan in order to effectively work for all undergraduate students and with government stakeholders. On-partisanship is not analogous to being apolitical. The work of the UASU is inherently political. As an organization, the UASU is committed to fight for students, and represent their needs in a non-partisan manner.

Definitions:

Nonpartisan - “free from party affiliation, bias, or designation”¹

Campus Food Bank History

● Created in response to increases in international student tuition in 1991
● Students from all backgrounds began accessing the service, not just anticipated group
● Moved from being a small service to a independent non-profit organization
● Supported by the campus community and alumni
What is Food Security?

Food security exists when all people, at all times, have physical, social and economic access to sufficient, safe and nutritious food which meets their dietary needs and food preferences for an active and healthy life.

Food Insecurity on Canadian Campuses

- 39% of students moderately or severely food insecure across 5 Canadian campuses (including U of C)

- 35% of students moderately or severely food insecure at University of Manitoba
  Entz, Slater, & Desmarais (2017). Student food insecurity at the University of Manitoba. Canadian Food Studies, Vol. 4 No. 1, pp. 139–159 DOI: 10.15353/cfs-rcea.v4i1.204

- 40% of students experience some degree of food insecure at University of Saskatchewan
Education Costs and Barriers

Entz, Slater, & Desmarais (2017). Student food insecurity at the University of Manitoba. Canadian Food Studies, Vol. 4 No. 1, pp. 139–159 DOI: 10.15353/cfs-rcea.v4i1.204
Stereotypes of Students

- Students are often assumed to be:
  - 18–24 year olds
  - Supported by parents or family
  - Certain amount of privilege
  - International students are wealthy

- Stereotype of how students should live (ex Eating instant noodles and Kraft Dinner)
  - “Starving student” – adversity is just part of the experience of being a student
At Increased Risk of Food Insecurity

- International students have 2 times the increased risk compared to domestic students
- Graduate students have 1.2 times the increased risk
- Students who parent have 1.7 times the increased risk

*Based on Odds Ratio (OR) where greater than 1 indicates an increased association with being food insecure.

Hampers per Year

I am taking care of my grandkids while back in school. My program funding has been delayed, so the food bank helps me feed my family.

The currency rate has dropped back home so my family is no longer able to help when my savings are running low.

My student loans were delayed, and I have bills such as rent and tuition that have to be paid on time. Paying for food too is tough right now, so using the food bank is helping me afford it.

I am new to Alberta and I have difficulty finding low cost food options that fit my dietary restrictions. I am not used to the food options here yet.

I am in school full-time and my spouse takes care of our three kids. My part-time income from my program doesn’t cover our living costs, so we rely on the Child Tax Benefit and occasional food hampers to cover gaps.
What is the Campus Food Bank Doing About Food Insecurity in Our Community?
Hamper Program

- Non-perishables and perishables, available biweekly
- Prioritize dietary restrictions and allergies
- Supplementary, to cover basic items
- 1500 hampers last academic year
Campus Kitchens

- Addressing lack of time to cook, as well as any food knowledge gaps
- Community building, a free meal and basic cooking skills and recipes
- Non-judgemental setting, to learn skills and talk more around food
Grocery Buses

- Provide access to lower cost grocery options, with a broad selection of foods
- Address gaps in available food near campus, such as halal meats, bulk food items, lower cost generally
WECAN Food Basket

- Edmonton-based non-profit
- Low cost grocery option
- Bulk-purchasing model (not subsidized by the food bank)
- A way to shop smart and conveniently
- Introduction to the food bank
Campus Food Bank Programs in During COVID-19
Hamper Program – Curbside Pickup and Delivery

- Non-perishables and perishables, available biweekly
- Prioritize dietary restrictions and allergies
- Supplementary, to cover basic items
- 2300 hampers last academic year
Cook with Us

- Virtual cooking class over Zoom
- Participants cook alongside volunteer chef, or can just watch
- Opportunity to ask live questions and develop understanding
- Replaces Campus Kitchens programming
WECAN Food Basket – Curbside Pickup and Delivery

- Edmonton-based non-profit
- Low cost grocery option
- Bulk-purchasing model (not subsidized by the food bank)
- A way to shop smart and conveniently
- Introduction to the food bank
