Zoom

We would like to respectfully acknowledge that our University and our Students' Union are located on Treaty 6 Territory. We are grateful to be on Cree, Dene, Saulteaux, Métis, Blackfoot, and Nakota Sioux territory; specifically the ancestral space of the Papaschase Cree. These Nations are our family, friends, faculty, staff, students, and peers. As members of the University of Alberta Students' Union we honour the nation-to-nation treaty relationship. We aspire for our learning, research, teaching, and governance to acknowledge and work towards the decolonization of Indigenous knowledges and traditions.

Discussion

Discussion

Motion
Yabut moves to discuss the rise of Asian Hate Crimes across North America and within our communities.

Abstract
Councillors Nicole de Grano, Julia Villoso & I would like to address the rise of anti-Asian based violence & hate in our communities and across the globe.

Our statement acknowledges the victims, recent events, as well as resources on education, donation and effective allyship.

We understand that this statement could just be put on the agenda as something for others to simply read, however we believe a spoken statement will carry a stronger voice to council.

Service Excellence Transformation (SET) Consultation Question List: I’m providing this in the case that you have not had time to read the interim report.

**Attachments**

- [pdf] INFORMATION ITEM 03.23.21 SET Consultation Question List
Date: 03.23.21
To: Students’ Union Council
Re: Service Excellence Transformation (SET) Consultation

Preamble

Here is a list of questions I’ve drawn from both the SET Interim Report and the presentation we received for the March 23rd Council meeting. I’m providing this in the case that you have not had time to read the interim report! Open to any discussion on these.

Attached is the last page (47) of the interim report, which is a “Student Service Centre Triage Diagram.” The following are not attached: Page 37 includes a timeline for the Student Service Centre development and Page 32 includes details on student service autonomy in a discussion about the proposed faculty structure. Page 29 includes a brief overview of service centres.

Questions

I have listed the page number of the content I pulled the question from, before listing the question.

Interim Report

1. 10: SET looks to reduce cost by reducing the procurement of goods and services. Will any of these reductions disproportionately affect students and/or equity-seeking groups?
2. 13: A listed SET objective is to “reduce internal demand for non-essential goods and services.” What does reducing internal demand mean, what are these non-essential goods and who is deciding they are non-essential?
3. 19: As SET considers how to maximize utilization of spaces and facilities and minimize costs,
   a. what environmental sustainability initiatives factor into minimizing costs?
   b. How is this transformation being leveraged as an opportunity to create more environmentally sustainable administrative infrastructure?
4. 22: Listed SET design criteria include allocating resources to administrative units in an equitable manner, according to a value-based assessment where highest value units get the most resources. What value criteria will be used to measure allocation? My concern centres around campuses or communities that have been or may become in danger of
underfunding in light of Academic Restructuring (e.g. Native Studies Faculty, Augustana Campus or Campus Saint-Jean).

5. 24: IT consolidation is part of SET: how will this improve support for eClass stability and professors teaching remotely?

6. 30/33: The Continuous Improvement Team is mentioned as a review team that will evaluate the transformation process and administrative unit performances;
   a. is this team a group of full-time employees?
   b. Does the team have a short-term timeline or will it exist indefinitely?
   c. How much will it cost?
   d. How public will their evaluations be?

7. 34: One of SET’s human resource principles is to be guided by EDI principles in decision making: can administration ensure that documentation and tangible action on following EDI principles is well-publicized for the university community?

8. 47: Where in the Student Service Centre Triage will students have access to
   a. French-speaking advisors?
   b. Indigenous advisors?
   c. Other culturally-sensitive advisors?
   d. If cost is a barrier to having unique advisors, what other service elements can be given up, as per question 2 on this question sheet, to fund and prioritize culturally-sensitive student advisors?

Presentation

1. 27: UAT’s goal includes more Work-Integrated Learning opportunities. How is UAlberta ensuring that opportunities are distributed equitably across all faculties, regardless of current donor concentrations (e.g. Engineering vs. Arts opportunities)?

Other

1. 6: The UAlberta 2019 Workforce Diversity Report indicates that UAlberta staff are least likely to be minority women, compounding with the reality that minority women employed by UAlberta are afraid of being laid off and have observed that they are most likely to be. How will managers determining layoffs be equitable in their release of staff members and directly address this concern that both data and people have raised?
When a complex enquiry is received, its solution is recorded. The lesson can then be applied at a lower service level. This means more enquiries can be dealt with at a lower level of service.
