The Alberta 2030 Post-Secondary Review
Implications and History
History: 1908-2019

- Alberta had an excellent, but very expensive, advanced education system
- Quality and access among the very best in the world
- In 2014, the price of oil fell over 70%, and the provincial budget deficit reached $12 Billion
- Government continued to support existing spending through borrowing
When the UCP was elected, they commissioned the MacKinnon report on Alberta’s finances.

- Looked only at ways to cut
- Questionable methodology
- Recommended large cuts to universities, tuition increases
Spring 2020: The Government decides to commission a complete review of the PSE system
- Governance, funding, partnerships, etc.
- Consultant, McKinsey and Co., hired for $3.7M
- Broad engagement and consultation
The Review: Consultation

- Dozens of stakeholder submissions
  - Including the UASU and CAUS
- Roundtables and Interviews
  - All major student associations invited
- The Guiding Coalition
  - Including me and an ASEC representative
- The government published a summary of what they heard a couple weeks ago.
The Review: Timeline

- Early 2020: McKinsey selected
- March 2020: Announcement of Review
- July 2020: Guiding coalition chosen
- August-October 2020: Submissions prepared and sent to McKinsey
- October ‘20-January ‘21: Guiding coalition, interviews, panel sessions
- May 2020: Recommendations announced
The Review: Timeline

- Early 2020: McKinsey selected
- March 2020: Announcement of Review
- July 2020: Guiding coalition chosen
- August-October 2020: Submissions prepared and sent to McKinsey
- October ‘20-January ‘21: Guiding coalition, interviews, panel sessions
- May 2020: Recommendations announced
The Review: Timeline

- July 2020: Guiding coalition chosen
- August-October 2020: Submissions prepared and sent to McKinsey
- October ‘20-January ‘21: Guiding coalition, interviews, panel sessions
- May 2020: Recommendations announced
RESULTS AND RECOMMENDATIONS
The review recommendations were announced by Minister Nicolaides at the start of May.

The 217-page summary powerpoint has a lot of detail about plans for the system.

Overall assessment: Not terrible and moves in the right direction

- Not enough money to get best results
Key Recommendations: Sexual Violence

- Sexual Violence Response
  - Creation of a provincial sexual violence prevention committee, similar to Nova Scotia
  - Broad consultation to develop a provincial strategy
- Our take: A win, and basically what we asked for, though not as fast as would be ideal.
Key Recommendations: Tuition

▪ Increase tuition flexibility
  ▪ Nobody knows what flexible tuition means.
    ▪ “market-based adjustments”
    ▪ “limited programs”
    ▪ “guardrails”
  ▪ Not complete deregulation
  ▪ Opportunities for continued advocacy
▪ Our take: Not great, but a lot better than it could have been.
Key Recommendations: Student Aid

- Doubling needs-based grants to prevent higher tuition pricing students out ($40-50 million)
  - Methodology: Estimate of amount in grants required to offset fall in student #
    - Flaws: 2020 is used as a baseline after tax credits cut, participation rate in 2020 is already low, we will still have the least grants in Canada
  - Our take: What we asked for, but too little and too late
Key Recommendations: Access for Indigenous Students

- Fund transition programs for Indigenous students, like the TYP at U of A
  - Work to determine $ needed
- Possible performance metric for indigenous enrolment
- Our take: Depends on the specifics and needs more evaluation
Key Recommendations: Mental Health

- Work to reassess the amount of money provided in the Mental Health Grant, potentially increasing it
- Our take: Probably good, but how good depends a lot on distribution and amount.
Key Recommendations: Governance

- Establishing system-level “advisory councils”, not touching Boards of Governors
- Reducing government power over university boards
- Financial deconsolidation of U of A
- Our take: Generally good, could have been WAY worse
Key Recommendations: Internationalization

- Mostly focused on recruitment of international students for financial reasons
- Creating an “Alberta Education Brand”
  - Unclear how this combines with current university branding and recruitment
- Our take: Skeptical about usefulness, but it’s not actively bad
ANY QUESTIONS?
