INTERNATIONALISATION OF NORTH AMERICAN UNIVERSITIES

Internationalisation:

“Process of integrating an international perspective into a college or university system. It is an ongoing, future-oriented, multidimensional, interdisciplinary, leadership-driven vision...working to change the internal dynamics of an institution to respond and adapt appropriately to an increasingly diverse, globally focused, ever-changing external environment” (Bartell, 2003)
INTERNATIONALISATION OF NORTH AMERICAN UNIVERSITIES

5 integral components applied in internationalisation of a university (Bartell 2003)

- College leadership
- Faculty members’ international involvement in activities with colleagues,
- Availability, affordability, accessibility and transferability of study abroad programs for students
- Presence and integration of international students, scholars and visiting faculty into campus life
- International co-curricular units (residence halls, conference planning centers, student unions, career centers, cultural immersion and language houses, student activities and student organisations)
INTERNATIONALISATION OF NORTH AMERICAN UNIVERSITIES

- minimalist: simply securing funding for study abroad programs, international exchange of students, international research
- Complex: all encompassing, policy driven process, integral to and permeating the life, culture, curriculum and research activities (Bartell, 2003)
RECOMMENDATION TO UASU STUDENT’S COUNCIL

1. Use a policy driven method to internationalize the Students’ Union
   • Training of all Students’ Union staff to be (more) culturally sensitive/aware
   • Creation of a space with an “international feel”
   • Creation of an international students union/committee/working group focused on internationalisation (eg UniTe – University of Twente)
   • Create international students portfolio within council
   • Use of ISWP if not using already
   • International events or events with international component (ECOS example of sustainability)
   • Integration of UAISN into Bears den
   • Better internationalisation of websites and social media
Internationalization

The Student Union applies itself to provide good facilities in the living environment of international students. An example is the housing of students. Associations are stimulated to be open to international students. Would you like to know more about internationalization at the Student Union? Check the website!

UniTe

UniTe is a committee, that consists of organizations that are active in the internationalization field. UniTe supports the internationalization policy at the University of Twente, for and by students.

In the meetings of UniTe the students give input about lots of different subjects. The Internationalization Vision of the UT and the improvements in integration of international students are examples of subjects. More information can be found on the UniTe website.
