Re: Board of Governors Representative Report #21

Dear Council,

I hope everyone is having a great reading week so far. I am in Jasper so I unfortunately will not be able to attend Students' Council this Tuesday. If anyone has any questions for me please feel free to contact me,

Successor Meeting

This past week I had the chance to meet with a candidate that will be running for my position in the fall. I was able to review his platform and ensure everything contained in it was factual and reasonable as well as provide advice for this upcoming term. If anyone else is interested in running for my position please let me know and get in touch.

BSA Consultation

I also had the opportunity to give a brief presentation to the BSA about who and what BoG is as well as solicit feedback from their body for the development of the Student Experience Action Plan and the Strategic Plan. I look forward to doing consultation with other SRA's over the next month in regards to this.

Budget Briefing

On Thursday the Board of Governors had the opportunity to be briefed on this upcoming budget for the University of Alberta. This was more of an opportunity for us to learn and fill any information gaps before the budget comes for approval.

Strategic Plan Development Session

Following the budget briefing we had the chance to listen to a "What We Heard" document that came out of phase one in the strategic planning process. Following this we got to give some of our own feedback in regards to this information. Unfortunately both of these sessions were closed sessions so I am unable to provide more details at this time.
