**I'll get it back**  
**to them.** ← *pronoun*

A pronoun is a word that  
takes the place of a noun:

**I, me, you, she, he, they, ze, etc.**

Pronouns are how we refer to people when we are  
**not using their names** and they are **just as important**  
as using someone's correct name when referring to them.
